1	NEWPORT BEACH, CALIFORNIA; WEDNESDAY, MARCH 25, 2009
2	4:00 P.M 6:05 P.M.
3	
4	MR. ALLEN: All right. We'll open the hearing
5	on the reasonable accommodation request made by Pacific
6	Shores.
7	For starters, my name is Thomas Allen. I'm a
8	Hearing Examiner that has been appointed by the City to
9	conduct hearings on group recovery facilities.
10	This first item today is Pacific Shores at Clay
11	and Orange Avenue, up in the Heights, right off Newport
12	Boulevard.
13	Prior to going into that matter, we have a
14	quick item of housekeeping. There's been a request by
15	the staff to continue the Resolution of the approval of
16	the 900 West Balboa Boulevard item from last meeting.
17	And the request is to continue that until the next
18	hearing.
19	And is there any reason to be concerned that
20	we're impairing anybody's rights or considerations in
21	that respect by continuing this?
22	MS. BROWN: No, sir, there's not.
23	MR. ALLEN: Would it effect the time for an
24	appeal to be filed?
25	MS. BROWN: The time for appeal would begin
	Λ

1	upon adoption of the Resolution.
2	MR. ALLEN: When is our next hearing?
3	MR. KIFF: We're going to have to look at your
4	calendar, Mr. Allen, and discuss that with you. And the
5	next home next facility coming up is Balboa Recovery,
6	potentially, at Kramer Center. And we need to pull those
7	staff together. I don't think it's more than two weeks
8	away.
9	MR. ALLEN: Why don't we do this. If anybody
10	expresses any concerns about getting it done sooner, then
11	I would certainly be willing to come in and go through
12	it. There's no public hearing requirement or anything of
13	that sort to be concerned with, so if there is concern
14	over getting it done more quickly, let me know, and I'll
15	come in and go through it and approve it.
16	MR. KIFF: Yes, sir.
17	MR. ALLEN: And so with that commitment, we'll
18	continue that item.
19	And then back to the agenda, which is number
20	two, the reasonable accommodation request for Pacific
21	Shores.
22	Staff report?
23	MR. KIFF: Thank you, Mr. Allen.
24	As we did with the previous reasonable
25	accommodation hearings, this will be represented by three

25

1	of us. Myself, I'll do the quick background and speak
2	the most briefly. And then Janet Brown, from our
3	Planning Department, will speak more about the specific
4	application, and then Cathy Wolcott, our Deputy District
5	Attorney, will speak more about the reasonable
6	accommodation requests specifically.
7	So a reminder to the audience, this is a
8	hearing on reasonable accommodation requests. And for
9	the purpose of the hearing they are soon to be
10	consolidated. There are five that have been requested by
11	Pacific Shores Properties.
12	As I just stated, we'll do a brief background
13	on how the hearing works, then the application, then
14	Ms. Wolcott will speak about the reasonable accommodation
15	chapter in our Municipal Code, as well as presenting the
16	specific request of Pacific Shores.
17	Then the Applicant has an opportunity to stand
18	up and speak before the Hearing Officer, and the
19	applicant's time is not limited. The public hearing is
20	open then, and comments by the public are limited to
21	three minutes, unless the Hearing Officer determines
22	otherwise.
23	The Hearing Officer then can close the public
24	hearing, and the Applicant can return to clarify or rebut

comments made. And then a dialog could ensue between the

Hearing Officer and the Applicant and City staff. 1 And then the Hearing Officer has an opportunity 2 to make a determination, the alternatives being approving 3 the request, denying the request, or continuing the hearing to a date certain. So for the public's understanding, here is 6 where the Pacific Shores Properties are, 492 1/2, 492 7 Orange, as well as 3309 Clay. They are proposing that 8 there be 50 recovery beds in this community divvied up 9 this way, 18 at 492 1/2 Orange, 20 at 492 Orange, 12 at 10 3309 Clay. 11 And with that, I may leave this up on the 12 board, but I'll let Ms. Brown speak more about the 13 specific application. 14 MS. BROWN: Thank you, Mr. Kiff. 15 Good afternoon, Mr. Allen. I'm Janet 16 Johnson-Brown, Associate Planner from the Planning 17 18 Department. The Pacific Shores facilities are comprised of 19 three buildings located on two parcels on the southwest 2.0 21 corner of Orange Avenue and Clay Street in the Newport Heights neighborhood. The properties are zoned R-2, 22 which allows for single-family and two-family residential 23 24 development. The property located at 3309 Clay Street is 25

developed with a single-family dwelling, and the Orange Avenue property is developed with two dwelling units.

The Applicant is requesting reasonable accommodation for relief from the Municipal Code to continue an unlicensed sober living facility to provide housing for up to 50 individuals in the three buildings.

With regards to establishment of use, staff is not certain when the use of the dwelling at 3309 Clay Street was converted to a residential care or group residential use. However, in response to complaints made to the City in the Spring of 2007 about unpermitted construction, City staff inspected the building and found that the building was occupied and appeared to be in use as either a residential care facility or a boarding house use.

The property located on Orange Avenue, 492 1/2, was constructed in 2005. And the final inspection by the Building Department to allow occupancy of this building occurred on September 21, 2005.

The 492 Orange Avenue building was inspected by the Building Department to allow occupancy on April 26, 2007. I did want to make a note for the record that the date of final inspection is incorrectly stated in the staff report on page 5 as April 24, 2007. This date should be April 25th.

After that final building inspection, the facility manager was observed moving furniture and tenants into the moving on May 8, 2007.

Since early 2007, there have been a variety of code enforcement issues brought to the attention the City regarding the Pacific Shores facility. These issues are discussed in detail in the staff report and include, but are not limited to, the unpermitted construction at 3309 Clay Street.

Following the inspection of the building in Spring of 2007, the City issued a notice of violation for unpermitted construction. In order to comply with City and State building code requirements, the City requires that violators remove unpermitted construction and/or obtain approval of plans and permits for the unpermitted work.

In response to the notice of violation and stop work order, the property owner submitted plans to the Building Department for plan check. It is the Building Department's standard practice to delay further enforcement action to allow the property owner an opportunity to complete the plan check process and obtain permits for the unpermitted work.

Over a year later, no attempts to complete the plan check process were made by the property owner. And,

PUBLIC HEARING - 3/25/2009 therefore, following standard City practice, enforcement 1 efforts resumed and an administrative citation was 2 3 issued. To date, this matter remains unresolved. Tn 4 the process of reviewing the plans, staff noted that the 5 building was incorrectly classified as an R-3 occupancy 6 for Building Code purposes rather than an R-4 occupancy. 7 An R-3 occupancy applies to single-family or 8 two-family structures, whereas an R-4 occupancy would 9 apply to structures for uses such as residential care 10 facilities for more than six residents. 11 The City's Fire Marshal is here at the hearing 12 today and can provide additional input as to the 13 significance of applying the correct occupancy rating to 14 15 the structures. In February of 2007, Code Enforcement staff 16

In February of 2007, Code Enforcement staff requested information about the use of the Pacific Shores facility. The manager of the facility at that time, Mr. Mark Manderson, Sr., informed Code Enforcement staff verbally and in writing that the facility leased rooms to tenants.

17

19

20

21

22

23

24

25

In May of 2007, an ADP complaint investigator looked into the allegation of unlicensed treatment being provided at the Pacific Shores facility. The officer reported to City staff that she was told by Mr. Manderson

that the Pacific Shores facility was not a recovery 1 facility, and that they just rented rooms to tenants. 2. the investigator's request, Mr. Manderson provided copies 3 of sample leases with the tenants -- some of the tenants. The ADP investigator determined that the Pacific Shores facility was likely a sober living facility, but the treatment services that would require 7 ADP licensing did not appear to be occurring on-site. 8 In July of 2007, the new facility manager, Mark 9 Manderson, Jr., told Code Enforcement staff that the 10 Pacific Shores facility was a sober living home. 11 In October 2007, the City filed a lawsuit in 12 State Court against Pacific Shores, LLC, for violations 13 of the Moratorium Ordinance for establishing a sober 14 living facility while the moratorium was in effect. 15 City dismissed Pacific Shores from that suit earlier this 16 17 year. As stated, the Applicant has requested 18 reasonable accommodation for relief from provisions of 19 the Municipal Code to continue operating an unlicensed 20 sober living facility. An application was initially 21 submitted September 24, 2008. And subsequent 22 amendments -- amended requests were submitted to the City 23 on March 10 and March 13, 2009. 24

25

The operational characteristics as described by

Pacific Shores are as follows. And this is based on the information that's been provided by the Applicant.

The clients reside at the facility under a separate written agreement with the operator and are expected to abide by a set of house rules, a copy of which is attached to the staff report as Exhibit 11.

The Applicant states that it does not have a manager or an administrator, but that there are two residents in each house designated to make sure that tenants do not use drugs or alcohol and to ensure the quiet enjoyment of the dwelling. The Applicant has also stated that Mark Manderson, who assists in the maintenance of the homes, is available on a 24-7 basis.

According to the Applicant, the curfew and quiet the hours are 10 p.m. on weekdays and 11 p.m. on weekends. And the Applicant states that curfew applies only to new members of the household during the first 30 days of tenancy, and that quiet hours apply to all residents.

The Applicant has stated that treatment services are not provided on-site, and that clients are expected to attend 12-Step meetings. There are no transportation services provided by the facility operator; however, the Applicant states that all residents are permitted to have personal vehicles while

residing at the facility, not all residents have

vehicles, and that some use public transportation.

The Applicant states that those residents who

do have personal vehicles park the vehicles along Old

Newport or along the commercial park area of Orange. And

that no residents park along Clay Street or on the

non-commercial parking area along Orange.

Each of the buildings do provide parking on-site in the form of an attached enclosed two-car garage.

And that concludes my portion of the presentation. Catherine Wolcott, from our City Attorney's Office, is here to discuss the specific request as related to the reasonable accommodation and the required findings that need to be made to grant the request.

MS. WOLCOTT: Thank you, Mr. Allen.

To begin with some background on reasonable accommodation in general, and anybody who's been to a reasonable accommodation hearing before has heard this, but we can go to the first slide.

Reasonable accommodation is something that is required under the Federal Fair Housing Act Amendments.

Under Federal law, cities are required to -- Federal law does define the failure to make reasonable accommodations

1	in rules, policies and practices or services when such
2	accommodations are necessary to afford a handicapped
3	person an equal opportunity to use and enjoy a dwelling.
4	The Court has repeatedly interpreted this
5	language as imposing an affirmative duty on landlords and
6	public agencies to reasonably accommodate the needs of
7	disabled individuals. This is not a system that the City
8	invented. This is something that is required under
9	Federal law, which all cities and counties and other
10	agencies other governmental entities have to comply
11	with.
12	The Fair Housing Act Amendment requires cities
13	to make exceptions from their usual rules, policies and
14	practices when necessary conditions are met. Those
15	conditions are:
16	The request is made on behalf of a disabled
17	individual or group of individuals;
18	The request is reasonable;
19	The exception or accommodation is necessary to
20	afford disabled individuals equal opportunity to use and
21	enjoy a dwelling, and we've also listed the source code
22	in the U.S. Code Regulations.
23	The request is considered unreasonable if
24	granting the request would either impose an undue
25	financial or administrative burden on the City, or it

result in the fundamental change in the nature of the City's zoning program.

2.0

2.3

So just because a disabled individual makes a request does not mean that the City is obligated to grant that specific request. There is limits on that, and staff does the analysis on whether or not a request is reasonable or necessary.

When an Applicant has given a request that is clearly cannot be granted, the City engages in an interactive process when possible to give them the option of what other requests they might ask for.

When courts have reviewed whether or not a fundamental alteration is being proposed in a request, what they look at is whether or not the request would undermine the basic purpose which the requirement seeks to achieve.

So in this case, we're looking at a number of requests that have to do with our Zoning Code and our Building Code. So we're going to be analyzing whether or not the basic purpose or the fundamental purpose of the Zoning Code, or Ordinance number 2008-05, or the California Building Code would be undermined by those requests.

As in all reasonable accommodation requests, they are analyzed on a case-by-case basis under the facts

1	specific to that particular applicant, that particular
2	request, and the section they have asked to be exempted
3	from.
4	The first analysis that we would do when we are
5	looking at a reasonable accommodation is the actually,
6	first we look at is whether or not they are disabled. In
7	this case, the Applicant has submitted to us a signed
8	statement that everybody who would reside in this
9	property is a recovering alcoholic or addict.
10	And the Federal courts and the Code of Federal
11	Regulations has defined persons in recovery from alcohol
12	and drug addiction as disabled individuals. That's the
13	Federal definition.
14	Then we look at whether or not the
15	accommodation is necessary. Will the accommodation allow
16	the disabled individual to live in the dwelling? Will
17	the disabled individual be unable to live in the dwelling
18	without the accommodation?
19	And if there's a direct link between the
20	accommodation and the required equal opportunity I
21	should start with the fact that the way the U.S. Code
22	phrases it is important in the analysis of necessity.
23	You look at let's see. The language of the
24	Code, I believe, is we have to make the accommodation if

such accommodation is necessary to afford disabled

1	individuals an equal opportunity to use and enjoy a
2	dwelling.
3	And the wording of that becomes important if
4	you're looking at how different circuits have interpreted
5	that particular phrase.
6	Pacific Shores Properties has requested to be
7	treated as a single can we back up one, Dave? I'm
8	sorry.
9	MR. KIFF: Yes.
10	MS. WOLCOTT: One of the things that Court
11	cases, in interpreting the necessity prong, have looked
12	at is whether or not there's a direct link between the
13	specific accommodation requested and the equal
14	opportunity which the Federal Government requires us to
15	provide.
16	And the courts have come up with two
17	requirements that would show that there's a necessity for
18	equal opportunity. One is whether the required
19	accommodation is necessary to make the facility
20	financially viable. And two, whether the required
21	accommodation provides therapeutic benefit.
22	And these are both very important factors to
23	look at when you're analyzing the request from a large
24	group facility. Do they need a facility the size they
25	asked for and are they financial viable, which the courts

1	have said affords disabled individuals an equal
2	opportunity to live and enjoy the dwelling? And does the
3	required size that they say they need provide a
4	therapeutic benefit for the individuals?
5	Pacific Shores Properties has made five
6	separate requests. The first request submitted back in
7	September of 2008 was to be treated as a single
8	housekeeping unit.
9	The second request was to be classified as a
10	residential care facility.
11	The third not excuse me not to be
12	classified as a residential care facility. Not to be
13	treated as one in our analysis.
14	The third request is to be classified as a
15	legal non-conforming use.
16	The fourth request was that all Zoning,
17	Building, Fire and other applicable Code provisions be
18	applied to the facility dwellings as if they were a
19	single or two-family use, rather than the use that our
20	land use classifications or the California Building Code
21	considers them to be;
22	The fifth request, which you received on March
23	13th, since the date of this staff report, is to be
24	exempt from the requirements of Newport Beach Municipal
25	Code Section 20.10.020, which is the land use matrix in

which we say the Code says that residential care
facilities that all residential care facilities that
are not six and under licensed must be located in MFR
residential districts with a use permit. As you know,
all licensed six and under facilities can be located in a
residential zone.

2.0

2.2

Request number one and number two will be treated together. We analyzed it at the same time, because the request to be treated as a single housekeeping unit and the request not to be classified as a residential care facility were basically rewordings of the same request.

If you look at the land use classifications entitled "20 and Residential Zones," of the land use classifications available, other than single housekeeping unit, there was no other land use classification that would have been particularly helpful to this Applicant.

The only other available classifications were day care homes, which was not applicable here, group residential, which is not helpful to the Applicant, because group residential uses, which is all other uses not residential care that are not living as a single housekeeping unit, all of those uses are provided in all other residential zones -- all residential zones, period. Let me correct that.

Integral facilities? We would analyze them as
an integral facility. That's another form of residential
care use. And the only remaining land use classification
was parolee/probation homes, which are also prohibited
throughout the residential zones.

Therefore, if we don't classify them as a residential care facility, the only other land use classification that they would fit into would be single-family, two-family and multi-family.

And it's a prerequisite for that use to be classified as that use, that the people living there be living as a single housekeeping unit. So that's the long way of saying we will treat those two requests the same as one.

read you the entire definition, but you can look at it on the screen. There are certain aspects of the definition that the facility may meet, including, probably, being an interactive group jointly occupying a single dwelling, may have joint use of and responsibility for common areas, they may share household activities, they may share meals and chores, although I believe the Applicant reported that they are responsible for their own meals.

And our single housekeeping unit definition goes on, however. If the unit is rented, all adult

residents -- see what happens when you don't proofread your work? -- residents have chosen to jointly occupy the entire premises of the dwelling unit under a single written lease with joint use and responsibility for the premises, and the makeup of the household occupying the unit is determined by the residents of the unit rather than the landlord or the property manager.

2.4

And the evidence that was submitted both to ADP and to us in the past is that they are each on individual leases with the landlord, and the landlord determines the makeup of the unit.

The characteristics of single housekeeping unit, outside of the definition, are single housekeeping units can live in any residential district. There are no occupancy restrictions within the home for a single housekeeping unit, other than those imposed by -- under the Zoning Code. There are some occupancy restrictions under the California Building Code as to how many individuals can live in a structure of a certain size.

So our analysis starts with, is the single housekeeping unit request reasonable? A request to be treated as a single housekeeping unit is essentially a request to be exempted from all of our restrictions and all of the conditions the City might impose on a large facility to reduce the negative secondary impacts.

One the basic purposes of the Ordinance was to mitigate the adverse secondary impacts which a residential care facilities might cause in surrounding neighborhoods.

1.0

1.7

As we mentioned, all other groups not living as a single housekeeping unit are entirely prohibited in other residential districts; therefore, in the City's view, the City has essentially already made a reasonable accommodation for residential care facilities.

We have allowed them a process in which, rather than just being told, "You are not a single housekeeping unit. You cannot locate in the City," we've made an exemption. And we said, "Because of the special needs of your handicapped residents, we have created a process, a lengthy -- you know, many, many options by which a residential care facility with disabled individuals may locate within the City."

However, if the request is granted, if this facility a treated as a single housekeeping unit, the basic purpose of Ordinance 2008-05 is nullified entirely, and that does create a fundamental alteration of what the Zoning Code intends and what the Zoning Code has adopted to achieve.

The next prong of the application -- excuse me -- of the analysis is whether or not treating it as a

single housekeeping unit is necessary to afford disabled 1 individuals the ability to live in and enjoy a dwelling. 2 The combination would allow disabled persons to live in a 3 dwelling. 4 However, then we next look at, would the 5 disabled individuals be unable to live in the dwelling 6 without the specific accommodation? And our answer is 7 The question is unnecessarily broad. no. 8 There are many options that the Zoning Code 9 allowed -- present, through which a residential care 10 facility can house its residence without being treated as 11 a single housekeeping unit. 12 Furthermore, the necessity for financial 13 viability or the therapeutic benefit of being treated as 14 a single housekeeping unit has not been shown by the 15 Applicant. 16 Alternative requests which are more reasonable 17 could afford the individuals an equal opportunity to 18 be -- to live within the City of Newport Beach. 19 If you review the staff report, all 39 page of 20 it, you'll see the full analysis of what findings we made 21 and did not make as to the single housekeeping unit 22 request and the request to not be treated as a 23 residential care facility. 24

25

If you want me to go into more details about

that, I'll happy to. But we do have a lot of requests to cover.

Move to request number three, the request to be treated as a non-conforming use. The staff recommended granting this request because essentially the City's already treated Pacific Shores as if it were a non-conforming use.

There are questions about establishment dates. There's a possibility that one was essentially established during a certain period. But the way we've been treating this facility is the same way that we treat all non-conforming uses within residential districts.

And I should add that there's been some confusion about legal non-conforming and non-conforming. In our Planning Department's parlance, we don't use the term "legal non-conforming." It's either non-conforming, which is legal to be there under certain conditions, or it's an illegal use.

Non-conforming uses in residential districts after the passage of the Ordinance 2008-05, had the opportunity to apply for a use permit within a certain period of time. They had the opportunity to apply for a reasonable accommodation. They had the opportunity to apply for an extended period of abatement. They could do any one of those options at the same time or in sequence.

1	And Pacific Shores has been give those same
2	options. They have been given the same opportunities as
3	non-conforming uses in residential zones.
4	Request number four, which is their request to
5	have these Zoning, Building and Fire Codes applied to
6	their dwellings as if they were single-family or a
7	two-family use.
8	Staff applied analysis used in requests number
9	one and two and recommended denial. Applying the Zoning
10	Code to a residential care facility as if it were a
11	residential use is essentially the same as treating it as
12	if with a single housekeeping unit.
13	As we've already discussed, single-family,
14	two-family and multi-family uses are single housekeeping
15	units essentially. And so we did the same analysis
16	there for Zoning and recommended denial.
17	As to the Building Code, California Building
18	Code is the State law. It is adopted at the State level
19	under the authority of the California State Legislature.
20	And it is adopted and enforced by the City of Newport
21	Beach. The Building Official and our Fire Marshal are
22	the individuals in the City staff that are responsible
23	for enforcing the State code.
24	Pacific Shores has requested to be treated as

an R-3 use, essentially. Switching gears a little, you

have not heard us talk before about Building Code occupancy.

Essentially, when the Building Code use

1.6

2.1

2.4

Essentially, when the Building Code use the word "occupancy" in a way that is similar to the way the Zoning Code uses the word "use." They are different terms, but they apply to what's the use that's going on inside the building.

State law establishes construction standards and life safety requirements for the different occupancy types, based on their operating characteristics and the needs of the residents. So R-3 under the Building Code are single and two-family occupancy. That would be a single-family home or a duplex.

R-4 are recovery facility occupancies housing seven or more in a building. And R-3.1 are recovery facility occupancies housing six or less in a building.

Essentially, as the Applicant proposes to house more than seven in each of its buildings, every one of their occupancies are classified as an R-4. They would like to be treated as an R-3 and have the standards for those -- the lower standards of Safety Code of R-3 applied.

The life safety standards for residential care facilities uses were established by the State Fire Marshal, not our Fire Marshal. And the State Fire

Marshal adopted them under the authority of the State

Legislature, which expressly directed him, in Health and

Safety Code 13135, to adopt specific standards for

alcohol and drug recovery facilities.

The City has the authority to substitute

alternate materials and methods that will provide an

equivalent level of protection, but we do not have the

authority to waive the level of protection or change the

2.4

level of protection. And we do not feel it is

appropriate in any way to lower the standards of safety

for the residents of these facilities.

Those standards were adopted for a reason. And they were adopted because, at the State level, the determination was made that there were operational characteristics for the special needs of the individuals in the facility that required that extra protection. We feel the Applicant should raise that extra protection. It should be willing to provide it rather than seek to lower it.

The City Fire Marshal enforces the State Fire Marshal's regulations. He does not create them himself. He does, however, have the authority to determine the equivalent level of protection that might be there.

And I'm going to see rather quickly if Mr. Bunting is here. He's not. If the Applicant has any

specific questions about why the Fire Marshal is
requiring what he is requiring, I can answer them to the
best of my ability when the time is appropriate.

But I can say that he has looked at some of the
facilities and has determined that they have the wrong
type of sprinkler in them. In a residential facility, a
residential type of sprinkler would be required.

In an R-4 occupancy -- I said "residential facility." It's not a facility.

18

19

20

21

2.2

23

2.4

25

In an R-4 occupancy, a commercial sprinkler systems are required. And the reason that's required is that a residential sprinkler is in place to suppress the fire long enough for the residents of that dwelling to exit safely.

In a commercial facility, a commercial sprinkler system is in place to prevent the spread of fires and suppress the fires to prevent -- to protect neighboring facilities, so the fire does not spread from one dwelling to another, which is one of the reasons that we could not make finding five in this analysis either.

We did feel that it would create a risk to neighboring properties, as well as to -- the risk to the residents of the facilities. Therefore, staff strongly does not recommend granting request number four.

Number five, waiver of the requirement of

location in MFR with use permit.

At this level, we had a number of different analyses that we did. We looked at whether the request was necessary and reasonable for the current residents of the facility. Because it is our feelings that if there are current residents there, and they are staying for a limited period of time, that's a different analysis as to the necessity, you know.

First, someone who is already there who would be deprived of housing if abatement proceeded. And two, reasonableness, if it's a short period of time. The facilities told us the average stay is, I think, 45 to 180 -- yeah. Approximately six months. So we didn't feel that allowing current residents to remain for up to six months maximum undermines the basic purpose of the Zoning Code.

We also analyzed at the population level that was requested specifically by the Applicant. The Applicant would like to house 50 individuals, 12 of them at 3309 Clay, 18 of them at 492 1/2 Orange, and 20 of them at 492 Orange, based upon the number of bedrooms that they represented are in these facilities.

Staff looked at this in detail, as you can see in the staff report, and determined that -- I can go into this a little bit more -- but determined that that level,

	PUBLIC HEARING - 3/25/2009
1	that number, was not necessary, and that number
2	fundamentally undermined the purpose of the Zoning Code.
3	Staff also analyzed what number and what
4	circumstances might be imposed that would enable this
5	particular facility to not being undermined the basic
6	purposes of the Zoning Code, and I'll talk about that
7	now.
8	So beginning with a necessity prong, is the
9	accommodation necessary to afford a disabled individual
10	an equal opportunity to use and enjoy a dwelling?
11	We looked there at whether or not and this
12	is from case law that we discussed earlier whether or

We looked there at whether or not -- and this is from case law that we discussed earlier -- whether or not the facility required the requested accommodation, and whether the requested population level was required to achieve financial viability and the therapeutic benefit? Which is what a number of circuits have found necessary to demonstrate the necessity prong.

We haven't seen any evidence of what the financial needs are of the facility. We have requested it, and the Applicant specifically objected to the request and declined to present it in the past. Any time the Applicant would like to present us with financial information, we would will be more than happy to analyze it and advise accordingly.

The Newport Beach Municipal Code allows the

1	City to consider four factors in determining necessity:
2	Whether the accommodation will affirmatively
3	enhance the quality of life of individuals with a
4	disability that's the therapeutic benefit analysis;
5	Whether the disabled individuals will be denied
6	an equal opportunity to enjoy the housing type of their
7	choice without the accommodation;
8	And whether the accommodation is necessary for
9	financial viability;
10	And whether the existing supply of facilities
11	of a similar nature and operation is sufficient to
12	provide individuals with an opportunity to use and enjoy
13	a dwelling in Newport Beach.
14	And that addresses the portion of the necessity
15	prong that I provided in the letter to you and to
16	opposing Counsel.
17	Staff analyzed the reasonableness and necessity
18	of this request with regard to the following categories:
19	Current residents of 492 and 492 1/2 Orange.
20	Because at this time, there is no one residing in 3309
21	Clay. That building has been red tagged pending
22	resolution of the Building Code issues.
23	And prospective residents at 50, and at staff's
24	recommended level 12 residents, one dwelling unit. As we
25	discussed in the staff report, without further input from

1	the public and from the Applicant, we didn't want to make	
2	solid recommendation on which specific dwelling unit to	
3	recommend for the one unit.	
4	My analysis was that the most appropriate was	
5	492 1/2 Orange, which is the back unit on the duplex at	
6	the corner of Clay and Orange. And the reason for this	
7	was that it's surrounded on two sides, one side by a	
8	commercial office building, two sides by a Pacific	
9	Shores' dwelling unit, and that would insulate the	
10	neighbors from any secondary impacts.	
11	And also that that was a use that was	
12	established prior to the moratorium. That did not	
13	violate the moratorium to the best of our knowledge, that	
14	particular unit.	
15	We move on to whether or not the accommodation	
16	request is reasonable. The fact that we're allowed to	
17	consider it is not the same as the findings. These are	
18	factors that we can think about while we're making the	
19	findings. These guide us in the analysis.	
20	Whether the accommodation would fundamental	
21	alter the nature of the neighborhood;	
22	Whether the accommodation would result in	
23	substantial increase in traffic or insufficient parking;	
24	MR. ALLEN: Just quickly.	
25	You're now going back and analyzing the request	
		32

1	as they made it, not how you're suggesting it would be
2	modified, right?
3	MS. WOLCOTT: In the staff report, we did both.
4	So if you go through the staff report, there's, you know,
5	category four as to prospective as to current
6	residents, and then we have two categories under
7	prospective residents, one of which is at the staff at
8	their requested level, and another is at the staff's
9	recommended level.
10	So as we went through it, we went through the
11	analysis, in a number of places we could not make the
12	required findings as to 50 individuals and three dwelling
13	units.
14	It didn't there were requirements about not
15	creating an overconcentration in the neighborhood, not
16	creating a clustering of facilities. And with three
17	dwelling units and 50 people, we could not make that
18	finding.
19	So then we analyzed with 12 people, one unit.
20	And specifically, we looked at the size of the unit. And
21	if, as staff recommended, that unit was taken back to the
22	way it was illustrated on plans that the City saw and
23	approved, that would give a recovery environment that is
24	much less compressed than any other we're aware of. It
25	would have 12 people with a facility that had only six

bedrooms and a bonus room and game room and offices. So

it would be spread out more, less density of the unit.

Other factors there, whether the accommodation

would create an institutional environment due to the

number and proximity of similar uses. Obviously, from

number and proximity of similar uses. Obviously, from our perspective, 50 people looked like a sober living institution. Eighteen people, 20 people in one dwelling unit looked like a sober living dormitory, not like a sober living home.

2.0

We are trying to make a recommendation that allowed it to be a sober living home, if that's what Federal law requires us to accommodate.

We went through the required findings. Would granting the request impose an undue financial or administrative burden? In most cases, no. At the staff's recommended level, no.

However, at the level requested by the Applicant, due to our history with this Applicant, due to the past Code Enforcement issues that we have had and continue to have, due to some of the misrepresentations made by the Applicant about what exactly the facility was early on back in Spring of 2007, because of those, we could not make that finding as to a facility with 50 residents.

We felt that we could make it as to 12

1	residents, if the Applicant agrees to work carefully with
2	us, if inspection is allowed once a year. As you'll see,
3	that's one of the conditions that staff proposes, so that
4	we can monitor the or not monitor, to confirm every
5	year that the occupancy is what we've agreed to.
6	Then we look at whether granting the request
7	would result in a fundamental alteration in the nature of
8	the zoning program?
9	Would allowing the use to continue in an R-2
10	zone undermine the basic purpose R-2 zoning seeks to
11	achieve?
12	We also look at whether allowing the use to
13	continue without a use permit undermines the basic
14	purpose that the use permit requirement seeks to achieve?
15	The purposes of the R-2 and MFR zones. R-2 is
16	intended to provide areas for single- and two-family
17	residential uses. This is medium to high density,
18	depending on location. In the Santa Ana Heights area,
19	the Planning Department says this is medium density.
20	MFR is to provide single-, two- and
21	multi-family residential uses. Also at medium to high
22	density. At staff's proposed level of density, which
23	would be 12 residents in a six- to nine-bedroom facility,
24	felt the medium level of density would be achieved, given
25	the size of the lots in that area.

1	The use permit environment is also very
2	important. Use permits are required for uses that have
3	operating characteristics that require special conditions
4	to keep them from having an impact on the neighborhood
5	around them and changing the residential character of
6	that neighborhood.
7	Ordinance 2008-05 requires use permits for
8	non-conforming uses in residential areas. And the
9	purpose of that is to ensure that the purpose of the
10	Zoning Code is achieved, and adverse secondary impacts
11	from non-conforming uses can be mitigated.
12	The purpose of the permit I'm not sure if
13	it's on the next slide.
14	The purpose is to that's the general use
15	permit reason. And this is the special the use permit
16	that has the procedures of 20.91A.
17	The purpose is to promote public health and
18	safety and implement goals of general plan by ensuring
19	that conditional uses do not change the character of
20	residential neighborhoods.
21	And the second purpose is to protect and
22	implement the recovery and reintegration of the disabled,
23	in part by avoiding overconcentration that would lead to
24	institutionalization of an area.

25

And in the mind of staff, that second prong is

as important as the first. We don't feel that it is to the benefit of recovering individuals to be in an overcrowded or institutionalized condition.

1.3

2.2

and reading cases, one of the purposes of community-based care is to allow the recovering individual to learn to reintegrate into a neighborhood, to have interaction with individuals who are not in the facility, so that they can start relearning the standards and norms of a regular neighborhood and learn how to enter the mainstream of society again. The purpose is to learn how to live in a neighborhood, not to learn how to live in an institution.

Is the use permit purpose undermined if the accommodation is granted at the level staff recommended and the level that the Applicant has requested?

One of the reasons we found that the use permit might not be undermined by granting a similar accommodation in the past is that reasonable controls, which the Hearing Officer can impose through a use permit, can also be imposed through a reasonable accommodation. The Municipal Code allows the reasonable accommodation process to have conditions attached to it.

The reasonable accommodation is not a land use entitlement. It does not run with the land. It is

specific to a particular applicant at a particular location under particular conditions.

Our analysis was that with the conditions -- and I stress with the conditions -- all the findings required to issue a use permit could be made for this facility, with the exception of one item, which I would like the Applicant to address.

One of the findings for a use permit, operational standards, 20.91A.050, is that no individual affiliated with the facility has a past pattern and practice of operating similar facilities in violation of state and local law.

You can parse out the word "similar facilities" and whether or not it means the same facility. But because some of the misrepresentations of the Applicant, this specific Applicant, in the past, or one member of the family that is affiliated with the facility, staff would like reassurance from Counsel and the Applicant that either that individual will not be involved in the operation or present us with an explanation of why not being able to make this finding does not undermine the purpose of our Zoning Code.

This is not a use permit. We're not requiring that you apply for a use permit. But we do have to analyze, so we have some flexibility with the reasonable

1	accommodation standards. But we do have to analyze why
2	that prong is not undermined.
3	MR. ALLEN: Would you expect to do that on the
4	record in a hearing, or is that something that you
5	suggesting otherwise?
6	MS. WOLCOTT: I don't know that that needs to
7	be on the record at this hearing. I think it could be in
8	the public record. It would be part of the Resolution
9	that's adopted. Is that acceptable to you?
10	Proposed conditions. A bed count of no more
11	than 12 clients with one resident manager on-site to
12	control the activities and to enforce the rules of the
13	facility.
14	The facility will not occupy the second or
15	third dwelling unit for residential care purposes.
16	Weeknight curfew of 10 p.m.
17	Weekend curfew of 11 p.m.
18	Quiet hours of 10 p.m. to 8 a.m.
19	Staff report also has some other conditions
20	that may not be included in here, which include quiet
21	hours for television at a certain hour. I think it's
22	after 10 o'clock and before 8 a.m.
23	No secondhand smoke detectable off the
24	property.
25	Twenty-four-hour contact provided to address

the neighbor concerns. As in other accommodations and permits that have been given, that would be a number that residents could call and receive an answer within 24 hours from the facility operator that would address, acknowledge the concerns, and give information on how those concerns would be addressed.

2.0

2.2

Providing a list of similar facilities owned or operated in the past five years, and certifying that no person operating such facility has done so in violation of law, or providing an explanation that was satisfactory to staff and the Hearing Officer of why this would not undermine the basic purpose of the Zoning Code.

No more than six residents with personal vehicles. In the staff report, we address the parking and the traffic issues. And if you'd like me to go into that, I can. If you'd like me to spare you that, I will summarize by saying that there are enough parking spaces on-site to accommodate at either one of the units only six residents under the parking standards required in the Zoning Code.

Therefore, we, staff, would require that the facility, which says that not all residents have cars, limit the personal vehicles of the residents present to no more than six, only six. And we would require that the garage be open and accessible for vehicle parking,

PUBLIC HEARING - 3/25/2009 and that those four residents who might have cars, if 1 they are not parking on-site, park only on Old Newport 2 Road or the commercial section of Clay Street -- excuse 3 me, Orange Street, and not park on Clay at all. 4 All other dwellings return to use single 5 housekeeping unit use. We would require, as we do with 6 all the use permits and accommodations, that we be given 7 the required compliance with all state and local laws, 8 including the California Building Code. 9 And if they are not in compliance at the time 10 that the Resolution -- any Resolution the Hearing Officer 11 would approve or not approve is executed, then they would 12 need to enter into a schedule with our Fire Marshal and 13 bring it into compliance to his satisfaction within a 14 certain period time. I believe we discussed six months. 15 We would also require an annual inspection to 16

We would also require an annual inspection to confirm occupancy for a set period of years, and that is because of the history that we have with this Applicant.

17

18

19

20

21

22

23

24

25

Okay. So we found that with conditions, the use could conform to the operational standards of 20.9A.050, with the exception of that last one, which we still are requiring an explanation for.

MR. KIFF: This may be where you're done.

MS. WOLCOTT: Okay. If you have any questions, I'd be happy to answer it.

MR. ALLEN: All of this last information with 1 respect to request number five has been done virtually at the last minute with no input from between you and the Applicant, as I understand it. And so it's all being presented today. And there are certainly a number of questions about that from my standpoint of negotiating 6 permit in this setting. So would you, staff, please think about that? And you don't need to respond right at the moment, but 9 that's not -- this isn't the proper forum to negotiate a 10 resolution, in my estimation. So this needs to be worked 11 12 out.

MS. WOLCOTT: Can I address that?

MR. ALLEN: You sure can.

13

14

15

16

17

18

19

20

2.1

22

23

2.4

25

MS. WOLCOTT: We received this particular request for accommodation on March 13th, when we were in the middle of several other use permit and reasonable accommodation applications. And so yes, that did push back the time for the preparation of the staff report.

We also asked for more information that was not provided until, I believe, the 18th of March, because there were items that they had declined to give us, information that they hadn't presented before that we needed in order to do an analysis that's consistent with a level of analysis we've done with other facilities.

I		1
1	So yes, staff came up with these	
2	recommendations without further input from the Applicant.	
3	And we did say in the staff report that we recognize that	
4	this has just been presented to them, to the Hearing	
5	Officer, and to the public.	
6	And if the Applicant wanted to request a	
7	continuance as to this particular or any member of the	
8	public wanted to request a continuance as to this	
9	particular prong of the analysis, this particular request	
10	number five, we would not object.	
11	MR. ALLEN: Okay. Okay. What's next from the	
12	staff?	
13	MR. KIFF: That's the end of the staff section,	
14	Mr. Allen.	
15	MR. ALLEN: Just a few quick questions.	
16	Those occupancy R-4 standards have been applied	
17	to all of the group facilities of seven or more in the	
18	City, right? This wouldn't be the first time you're	
19	suddenly applying R-4 standards?	
20	MS. WOLCOTT: Our Fire Marshal has been sending	
21	letters to all facilities of seven or more per building	
22	for over a year requesting plan analysis, code analysis	
23	of the particular building that they are in, so they can	
24	assess whether or not they are in compliance either with	
25	the 2007 Building Code, which was the new Code adopted in	
		43

Į		
1	2007, or with the standards which were applicable when	
2	the use was established. That is an ongoing process, and	
3	it is still a requirement.	
4	MR. ALLEN: Just a question of physical	
5	characteristics. I just went by this facility yesterday	
6	a couple of times, and I really couldn't tell whether	
7	492, I think it is, and 492 1/2 are actually attached	
8	dwellings or whether there is a separation between the	
9	two, your 18 and 20 there.	
10	MS. WOLCOTT: They look like two separate	
11	buildings. And Ms. Brown can probably address this	
12	better than I can. They are classified as a duplex, and	
13	Janet will tell you why.	
14	MS. BROWN: The Zoning Code requires a	
15	separation between detached structures, or they may be	
16	attached by a solid roof 4 feet in width or more. And	
17	when the buildings were constructed, they were attached	
18	with a solid roof towards the rear of the property about	
19	where Mr. Kiff is pointing right now. So there's just a	
20	single solid roof attaching these two structures to each	
21	other.	
22	MR. ALLEN: So you can't go back and forth	
23	between the two building	
24	MS. BROWN: No.	
25	THE COURT: interiorly?	
		44

1	MS. BROWN: No, sir, you cannot.	A COLUMN TO THE PROPERTY OF TH
2	MS. WOLCOTT: I would add that we looked at the	Carried and Advisory Pro-
3	populations of this block. And we look at the 2000	
4	Census to try to compare density. And I think our	
5	analysis was that, one, they have turned	
6	approximately with all three units in operation, they	
7	would return approximately one-quarter of this block area	
8	to that block that's there and that block that's over	
9	there would be put to residential facility use.	
10	Ms. Brown did an analysis from the 2000 Census	
11	of how many parcels there were, and came up with an	
12	analysis of let's see. I'll have Janet do this one.	
13	MS. BROWN: On the side of the street with the	
14	residential buildings facing along Clay Street, and then	
15	it goes down the block goes down Broad Street, which	
16	you can't see this in aerial photo, but along that block,	
17	there were 20 lots or parcels. And the 20 blocks or	
18	parcels that are residentially zones, there are 37 lots	
19	or parcels on the other side, back-to-back properties,	
20	that were commercially zoned.	
21	So and the 2000 Census recognized that there	
22	were 70 persons in that particular block. If I counted	
23	just the number of residential parcels decided by 70	
24	persons, that would be 3.5 individuals per lot or parcel.	
25	Across the street from Clay, which you can see	
		45

1	a portion of it in this photo to the right here, that
2	block is a smaller block defined by the census, a total
3	of 12 lots or parcels. There were 43 persons in that
4	block. So based on that count, that would be 3.58
5	persons per block in the 2000 Census.
6	MS. WOLCOTT: So those were the numbers that we
7	were comparing the density for a proposal that housed 50
8	people in that portion.
9	MR. ALLEN: All right. From an
10	overconcentration point of view, there really there
11	wasn't much. There was a reference to overconcentration
12	in the staff report, but no real analysis. Just, why was
13	that the case?
14	MS. WOLCOTT: Maybe in my mind, it went without
15	saying that three units on a block housing 50 people
16	created an overconcentration. I'm sorry if I didn't make
17	that clear in the staff report.
18	MR. ALLEN: I mean, is that a finding that
19	would be included here independently? I understand you
20	made reference to institutionalization, which is
21	understandable, but
22	MS. WOLCOTT: Let me another take another look
23	through the 39-page staff report and see if I can find
24	where I would have referenced that.
25	MR. ALLEN: Very good, thank you.

1		
1	Okay. Anything else from staff right now?	
2	MR. KIFF: No, sir.	
3	MR. ALLEN: Would the applicant like to make a	
4	presentation at this time?	
5	MR. POLIN: I would. I would also like to take	
6	a five-minute recess before I begin.	
7	MR. ALLEN: Let's take a five-minute recess.	
8	MR. POLIN: Thank you.	
9	(Pause in proceeding.)	
10	MR. ALLEN: All right. We're going back on the	
11	record.	
12	Would conversations please continue outside?	
13	Applicant ready to proceed?	
14	MR. POLIN: Thank you, Mr. Allen. My name is	
15	Steven Polin, and I'm one of the attorneys for Pacific	
16	Shores.	
17	As a preliminary matter, Pacific Shores is	
18	currently in litigation with the City of Newport Beach in	
19	Federal Court where we have challenged the requirements	
20	of the use provisions and the reasonable accommodation	
21	provisions as being violations of the Federal Fair	
22	Housing Act.	
23	Pacific Shores did not apply for a use permit,	
24	and I strongly object to the interjection into this	
25	reasonable accommodation proceeding by the City of any of	
		47

1	the requirements of the elements of a use permit. And
2	you, Mr. Allen, if you're going to decide this and
3	consider the factors of a use permit and our request for
4	a reasonable accommodation, then it's basically this
5	hearing is tainted.
6	Reasonable accommodation. The Federal Fair
7	Housing Act states that handicapped people handicapped
8	persons can request a reasonable accommodation from any
9	rule, policy, practice or procedure from any entity.
10	Reasonable accommodation, put in layman's
11	terms, is either asking for a waiver of a condition or
12	requirement or a change in a condition or requirement or
13	doing something out of the ordinary.
14	Now, we have made five separate requests for
15	reasonable accommodation from the City.
16	One of them is to be treated as a single
17	housekeeping unit.
18	Another one is to not be is to ask the City
19	not to classify us as a residential care facility.
20	Another one would be to say that we're a legal
21	non-conforming use or the City recognizes us as a
22	non-conforming use that is not in violation of the City's
23	Zoning Ordinance.
24	The other is to treat Pacific Shores in the
25	provision of all Codes, Zoning, Building, Fire, Life

Safety, as if it were a single family use.

And finally, that we're not -- that the City waive the requirement that unlicensed residential care facilities may be located in only a residential multi-family zone with a use permit.

Now, we have three houses with approximately 50 beds. What the City has come forward and told you is we're willing to give them an accommodation, but only for 12 beds. That's not acceptable. That is not what our request is. And to grant that, to give the City what the City is recommending, is a denial of our request for reasonable accommodation. Let me tell you why.

The City and yourself is required to take our request as being reasonable. And reasonable is given a very, very wide interpretation. As a matter of fact, Justice Bryer, in the case of Barrett versus United -- United -- U.S. Airways, said that you have to look at the dictionary to see what reasonable is. And it's given a great deal of leeway.

So to say that we're going to say that

you -- we're going to take 38 beds away from you is not

reasonable. And the City hasn't proffered any reason,

under the Fair Housing Act, as to why 38 people should be

evicted and lose their place to live and recover from

alcoholism and drug addiction. So first of all, you have

to take our request and each of our requests as being reasonable.

Second of all, once it's found to be reasonable, then it can only be found not to be reasonable if it creates or causes an undue burden financially, if it causes an undue burden administratively, or if it fundamentally undermines or alters the scheme.

Now, the City has arguing to you and putting forth that there is no undue burden financially, there is no undue burden administratively. However, three of our five requests cause a fundamental alteration of the zoning scheme.

And the reason the City says that is because its zoning scheme is under attack. All right? It is under attack for being in violation of the Fair Housing Act. So if they grant an exception, if they say Pacific Shores can operate as a single housekeeping unit, well, what kind of signal is that going send to the people who are opposed to Pacific Shores and to group residential uses in general in the City?

And what kind of signal -- and the City, I believe, their position is, what kind of signal is that going to send to the other residential -- to the other providers of housing? And they are going to say, "Well,

1	Pacific Shores can walk in there and get this, then we
2	can get this, too."
3	Well, the thing about reasonable accommodation,
4	Mr. Allen, is that it's a fact-intensive, basically
5	one-time deal only. It is to be considered by the
6	Applicant on the facts that are presented and
7	circumstances that are presented. It may have
8	precedential value in later proceedings if there are
9	similar situations.
10	But it doesn't lock the City into anything, all
11	right, other than, in this particular instance, a request
12	for reasonable accommodation was granted.
13	So to follow the City's logic that if you grant
14	our request to be treated as a single housekeeping unit
15	their whole Zoning Code is undermined is a fallacy.
16	Because other courts have said in similar
17	situations in similar situations and I'll give you
18	an example called Tsombanidis for the Court Reporter,
19	it's T-s-o-m-b-a-n-i-d-i-s versus City of West Haven,
20	which is an Oxford House case.
21	"Where the Court finds that the requested
22	accommodation was reasonable in light of the
23	fact that Oxford House Jones Hill operates in a
24	manner similar to a single family residence,
25	and the residents need to live in group homes

2.3

located in single family districts removed in the areas where persons in recovery can readily obtain drugs or alcohol.

"Moreover, the city's zoning regulations already treat unrelated persons as a single family so long as they are three or less in number, and the regulations impose no numerical limitations on the number of related persons who can give live together a single neighborhood."

So it's illegal in California to place numerical limitations on what constitutes a family.

There's a case called Adamson versus City of Santa Barbara, and that case involved 12 people living in a house.

And the City has crafted an Ordinance for a new definition of single housekeeping units that pretty much tracks every other municipality in the State of California that uses it, except they put in a provision that says, "Unless they have a unitary lease, that they can't be considered a single housekeeping unit."

Well, with group homes and with providers of housing for people who have disabilities, particularly with alcoholism and drug addiction, it is impossible to have all the residents on one lease. They all come in at

different times. They leave at different times. They get kicked out for violation of the rules.

2.0

2.3

So a reasonable accommodation in terms of the single housekeeping unit would be to request a waiver of this particular provision. And that doesn't undermine anything. What it does is it is a recognition that group homes and group home providers have special and unique needs that need to be addressed.

Now -- and that is the reason why the City has recommended that Pacific Shores not be granted a reasonable accommodation to be a single housekeeping unit. And that's the reason that the City proffers is undermining its Zoning Code. And I submit to you, Mr. Allen, that that those are insufficient reasons.

And unless the City can demonstrate how the entire fabric of the Ordinance 2008-05 would be undermined by the granting of that, then I think you are compelled, sir, to grant our request for reasonable accommodation in terms of that.

The City says that we should not be -- our request not to be treated as a residential care facility should also be denied, because the City has enacted a zoning scheme that only classifies people with disabilities as being a residential care facility.

It does not apply to families. It does not

1	apply to non-disabled people. It is only a
2	classification of those residences and those and that
3	type of housing that provide housing or housing or
4	services to people with disabilities.
5	This isn't the forum to litigate this,
6	or but I'm going to tell you that that is
7	discriminatory on its face. It's treating groups of
8	disabled people differently than group of non-disabled
9	people, and the Fair Housing Act prohibits that.
10	So when you have a classification as a group
11	residential facility and say that they can only set up as
12	a matter of right in certain zones, then that is denying
13	housing opportunities to those types of people.
14	And to say that Pacific Shores should not be
15	granted a reasonable accommodation, or at least a waiver
16	from that classification, merely because merely
17	because disabled people live there is not a reason to
18	deny the request for a reasonable accommodation, because
19	that is discriminatory.
20	The City has police powers to regulate rooming
21	houses, boarding houses, fraternities, sororities,
22	private clubs, in part because these types of uses do not
23	provide housing to persons with disabilities. And
24	persons with disabilities are specifically a protected
25	class under the Federal Fair Housing Act.

I often get asked about, well, what about the students that live together? Don't they get the same thing? And the answer is no, they don't, because they are not protected under the Federal Fair Housing Act.

So when you start classifying uses based on a -- based on the class of people that are living there, and that those classes are specifically enumerated in the Fair Housing Act, then you start running into problems.

If the concept is difficult to grasp, I often say, "If you don't understand it, just substitute 'race' for 'disability.'" So if you had -- if this was a matter of race or national origin, people would be standing up and saying, "This can't be." But because it's people with disabilities, it's okay? No, it's not.

I don't think there's any question that the population that Pacific Shores provides housing to is disabled. I don't think that's in question in any of these -- in any of these findings or any of the discussion in the report.

The City admits that -- the City does not question the need for sober housing, but the City also, at the same time, says, "But we need to regulate it. We need to put conditions on them. We need to keep them out of sight, because people in our City don't like the fact that they're present. But we can't kick them out, so

what we're going to do is make it as difficult as
possible for these facilities to exist in Newport Beach,
and maybe they will get tired of having to come in and
ask for permission to live here."

2.

2.2

Because basically this is what the City has created is a zoning scheme that requires providers of housing for people with disabilities to ask for permission to come in and either stay where they are or ask for permission to have a certain number of people living there.

Now, this isn't asked of anybody else in the City of Newport Beach, and I don't believe the Fair Housing allows in these circumstances a provider of housing to ask for permission.

Pacific Shores has been where it's been prior to the enactment of this Ordinance. This is part of the reason why we asked as an accommodation that it be treated as a non-conforming use. If you grant our request that it is a non-conforming use, then I think what that means is we go back to what it was prior to the enactment of this Ordinance and apply those standards as if this were 2007 or 2006, and not 2009.

Let me just say this, Mr. Allen, in all group home situations, parking is always problematic. It's the type of problem that can always be -- in my experience,

can always be remedied. It can always be worked out with the housing provider, with the residents, in terms of what's reasonable. And I don't think you need to be acceding to the City's request to put parking restrictions on us. I think that can be worked out without the imposition of any kind of conditions.

The City says it has authority treating Pacific Shores as a legal non-conforming use. I disagree with that. If it was a non-conforming use, then we wouldn't be here. If the City was treating it as being legal, we wouldn't be here. We wouldn't have to be asking for a reasonable accommodation. We wouldn't have to be asking that the provisions of the Ordinance not be applied to Pacific Shores.

Let me just say something about the Code provisions that we're asking a waiver of. The Code provisions -- and Ms. Wolcott spent a lot of time about the Fire Code and about the fire classifications. I can tell you this. These Codes are not tailored, narrowly tailored to the specifics needs of this specific population.

Courts have looked at across the board fire restrictions. And there's a case called Marbrunic versus City of Stowe. It's a Sixth Circuit case. And the Sixth Circuit said, "When you look at the imposition of Life

and Safety Codes, you have to take into consideration the nature of the disability, and you have to narrowly tailor those Life and Safety Code provisions to the ability of the residents to respond to an emergency."

So basically what Ms. Wolcott is asking you to do, Mr. Allen, is to impose commercial Fire Code

do, Mr. Allen, is to impose commercial Fire Code requirements because the State Code says so. I'm saying that that is not so. Because reasonable accommodation can be made to tailor those requirements.

And part of what we've asked -- and maybe this is something that can be worked out -- is to treat -- is the application of the Fire Codes as if it were a single-family or two-family use, which was our request was.

The City goes the other way and says, "It has to be done as an R-3 or maybe an R-4," whichever one deals with sober facilities of this size, which is basically the imposition of a commercial Fire Code requirements. This is not narrowly tailored. It's just, "You look at the book. This is what it says. You apply it."

That isn't what the courts say. That isn't how the courts say that you have to deal -- that the -- how these type of code requirements are applied to groups of people with disabilities, that the nature of the

disability has to be taken into account, and their ability to respond to the particular emergency has to be taken into account.

And I would submit that if the City, you know, that if this were -- if the house is a -- one, is a legal use in an R-2 -- R-2 zone, and it's got all the Life and Safety requirements that is required of a use in an R-2, that that should be sufficient, because that will take in consideration what the City feels is protection for the other dwellings in the neighborhood.

This is not an institution. And I take great exception to Ms. Wolcott talking in terms of Pacific Shores being an institutional use. This is not a campus, all right? If we had the diagram back up there, this is on the corner of Orange and Clay.

Directly across the street, which is cut off at the top of the photo, are commercial uses. There's a power plant across the street. There's multi-family dwellings across the street. Orange Avenue is the dividing line between either multi-family and commercial use and R-2 uses. So right there on the corner is where it changes. So when you look across the street, you've got different uses.

Now, this is the zone that it's located in.

This is the zoning that the City is discussing. However,

7	when the everyll neighborhood is taken into
1	when the overall neighborhood is taken into
2	consideration, you need to take into consideration that
3	directly across the street is an office building, is a
4	power plant, and is a multi-family structure.
5	So and to say that those three houses are
6	somehow or another have an overconcentration of the
7	disabled people living there and that creates an
8	institutional use is truly affecting a disservice to
9	those people who live there.
LO	Because they work. They get out in the
11	community. They take care of the houses. The houses are
L2	absolutely immaculate. They are beautiful. The insides
L3	of the houses are beautiful. And to say that somehow or
L 4	another this creates an institutional use is really
15	coming to the typical stereotyping of having groups of
L6	disabled people living under the same roof.
L-7	Let me just say this. There is an
18	ongoing ongoing issue with this construction and what
19	the State Fire Marshal has done. I believe that if our
20	requested accommodation is resembling somewhat in the
21	form in the numbers that we're requesting, these issues
22	can be resolved and can be resolved peacefully.
23	There's ongoing controversy about this
24	unpermitted construction. As to when it started, we

believe that it was brought into play when the City cited

1	Pacific Shores with violating the moratorium. The
2	moratorium is also and that conduct is also part of
3	our lawsuit.
4	So to a certain extent, yes, this is relevant
5	information for you to have; on the other hand, the
6	nature of the controversy and how the City has gone about
7	it is a matter that's being litigated, and we would hope
8	that if our request for accommodations are requested,
9	that those will easily be resolved.
10	MR. ALLEN: What is your understanding of where
11	this Code enforcement issue with that single-family
12	dwelling stands? And what is your client doing or not
13	doing to seek to gain approval of the work that was done,
14	if you know?
15	MR. POLIN: Well, to a certain extent, it's a
16	situation of the dog chasing the tail. We believe that
17	we have submitted what has been required. The City says
18	otherwise. So we're in this ongoing debate as to what
19	it's going to take to satisfy the City.
20	MR. ALLEN: Has been going on for well over a
21	year, it looks like.
22	MR. POLIN: Yes.
23	MR. ALLEN: It puzzled me as to why you would
24	be here making application and when you were at that
25	stage?

1	MR. POLIN: Actually, the thing with the Fire
2	Marshal is a recent event. That happened last fall.
3	Before that, it had to do with unpermitted construction.
4	We believe that we had the requisite permits to do the
5	construction. The City says that we didn't.
6	That we believe that the construction
7	started that we got permission to start the
8	construction in 2006. The City said that you've got the
9	permits, but you didn't do the construction. It's really
10	an issue that doesn't have a place here.
11	The Fire Marshal and the reclassification is a
12	recent event, which I don't want to to be honest with
13	you, Mr. Allen, I don't want to get into it, because
14	it there are legal issues involved in it that aren't
15	really necessary, other than the fact
16	MR. ALLEN: I wasn't asking so much about the
17	Fire Marshal thing, as such I'm puzzled why it's taken so
18	long to get Code compliance with a use that you want to
19	take.
20	MR. POLIN: It's a situation where, at one
21	point, we thought it was resolved. City tells us
22	otherwise
23	MR. ALLEN: Okay.
24	MR. POLIN: all right? We're trying to get
25	it resolved.

This brings us to the last issue to continue operating in an R-2 zone when this is only a permitted use in an MFR with a use permit.

2.3

If you go along with what the City is proposing with the reasonable accommodation, that is a denial of our reasonable accommodation request. We're not requesting an accommodation from one house. We're not requesting an accommodation from 12 beds. We're requesting an accommodation for all three houses. The City is proposing to you to basically close down the other two houses. That's not an accommodation. It's does not even come close to being an accommodation.

Let me say this. I know Ms. Wolcott told you what was going on with our reasonable accommodation request. I didn't get this report until late Monday night. We made our request last September. Between September and now, there have been intermittent requests for additional information.

Some of the information we do not -- we did not provide, because we do not believe the Fair Housing Act requires us, as an Applicant or a request for a reasonable accommodation, to provide such information.

MR. ALLEN: Do you believe you do not have to supply that financial information in order to analyze the issue about hardship, and that's part of this?

MR. POLIN: It depends. The financing information -- our thrust of the request for reasonable accommodation had to do with -- our initial thrust had to do with we wanted to be treated as a single housekeeping unit.

We weren't claiming the financial necessity.

That's where that information -- that's where that information would come into play, if we said it was

information would come into play, if we said it was necessary to have X amount of people because it was financially viable to have X amount of people in the house.

What we wanted it treated as is a single house. That's what our initial request was. There's been a lot of back and forth between myself and Mr. Brancart, who is my co-counsel, and the City about amending. And as you can see, there have been subsequent amendments to our request for reasonable accommodation, because we're trying to work with the City on this. Now, nowhere -- this notion of, "We're only going to recommend 12 beds," came out of the blue.

The other thing, Mr. Allen, is that the law is pretty clear about request for reasonable accommodation being acted on promptly. This zoning scheme -- this Ordinance is the City's creation. It's not my creation, all right?

And so whatever issues that the City has in terms of implementing the Code, in terms of processing either use permits or request for reasonable accommodation, is not my problem. Any undue delay in acting on a reasonable accommodation request is considered to be a denial of that request.

And I'll cite you to probably the seminal case that's called Groome versus Jefferson Parish. It's a Fifth Circuit case. Even if you were to grant the request today as we requested it, our request is the courts would still say it doesn't make any difference, because your request was denied, because there's been an eight-month delay or seven-month delay in acting on the request. I don't want that to happen.

All I can tell you is that the way the City loaded up the conditions and the information on this fifth request isn't a reasonable accommodation. Bringing in the use permit requirements to ask you to consider those requirements as part of our reasonable accommodation request is not a reasonable accommodation.

And basically, I believe it taints the hearing and undermines the purposes, according to USC 3604BF3, which is the reasonable accommodation provision. And I don't believe the courts allow that type of interjection, because it's not necessary to the analysis for reasonable

accommodation requests.

To compare us -- to compare Pacific Shores to those -- to those applicants that have applied for a use permit and say, "Well, this is what -- the information they have provided because it's required in the use permit," when the Code -- when their own Code provision says this is what you are to consider in terms of the information, and me, being the Applicant, is required to provide, sort of like stands the reasonable accommodation provision and the reasonable accommodation provision and the reasonable accommodation process on its head.

And the City can't come in here and say "Ignore what Title 20" -- and I think it's .94, I may be wrong, "says, because this is what we want you to consider. This is how you should evaluate this." That's wrong, and it's not -- they are the ones who wrote the Ordinance.

You, as a Hearing Officer, should hold their feet to the fire as to what they wrote and what is required, and not just bring in the dump truck and dump a bunch of stuff that doesn't belong in here. Like I said, we've applied for an accommodation for all three houses. The City is saying that we'll only give you an accommodation for one house with 12 beds.

Let me tell you something else, Mr. Allen, because the City brought this up. This occupancy

requirement that the City has, two per bedroom, plus one
house manager, that's how they covered it, it's illegal.
Case called City of Edmonds versus Oxford House, 514 U.S.
something. It's a Supreme Court case.
It dealt with occupancy requirements. It says,
"It is illegal to treat to impose occupancy
requirements on unrelated people that are different from
related people. It has to be uniformly across the
board."
What the City is doing is saying that groups of
disabled people are being treated in terms of occupancy
differently than groups of either unrelated, non-disabled
people, or related people, or maybe even related disabled
people. It's illegal.
And for them to come in and say, "The number
that they are entitled to is 12 because they have six
bedrooms," is not only illegal but it's unreasonable, and
it cannot be sustained on a reasonable accommodation
analysis.
MR. ALLEN: Maybe the City will address that
when they get back up. I thought those standards applied
to all uses, not just to the
MR. POLIN: No.
MR. ALLEN: disabled.
MR. POLIN: No, they don't.

Okay. So what we're asking for, Mr. Allen, is that our request for reasonable accommodation be granted. And if it's going to be the City said that it should be -- we should be recommended under our request number three and number five, if it's under either of those requests, then we want our accommodation for all three houses.

If you think that we're entitled to a reasonable accommodation to be treated as a single

If you think that we're entitled to a reasonable accommodation to be treated as a single housekeeping unit because what we're asking for is to be treated like a family and to waive this unitary lease requirement, then I would be very happy if you did that.

Nevertheless, we have five requests that we've made. Two of them the City has said they don't oppose.

One of them, though, which they don't oppose they have such a litany of conditions on it that if you granted what the City is asking, that, in effect, denies our request for reasonable accommodation.

And basically what the effect will be when we talk about what may be necessary to afford a person an equal opportunity to enjoy and use a dwelling will be denying 38 people, potentially, maybe less than that, an opportunity to use and enjoy the dwelling that they are currently using mainly because they have to be evicted.

And I don't think the Fair Housing Act will

PUBLIC HEARING - 3/25/2009 allow the granting of an accommodation that results in people being denied -- who are already living there denied the opportunity to use and enjoy the dwelling of their choice. Not just any dwelling, the dwelling of their choice. Thank you. MR. ALLEN: One quick point. With respect to non-conforming use, you said the City granted you number three, non-conforming use, that you'd be perfectly happy. As I hear the City describing that, they are saying that if -- you are a non-conforming use according to their standards, but that it would be required for you to obtain one of the use permits if you were a non-conforming use in that zone. MR. POLIN: Well, I think what we're asking for

is that we be treated as a non-conforming use, and there be a waiver of the use permit requirements. If you grant that accommodation, I don't think we would be subject to the use permit requirements. I think we'd go back to the pre-2008, basically. That's what we're asking for.

We're asking to be granted -- actually, what the request was, which they didn't put it in here, is so that we be grandfathered in. We want to be grandfathered in.

MR. ALLEN: I saw that your request said you

1	wanted to be grandfathered in, and that artful legal term	
2	caught me. But I do understand, and maybe the City can	
3	respond to that when they respond to your comments.	
4	MR. POLIN: Thank you.	
5	MR. ALLEN: Thank you.	
6	MR. BOBKO: Mr. Allen, would you like me to	
7	respond now, or would you like to take public comment?	
8	MR. ALLEN: I think that we have a lot of	
9	people here. And if you can if you have your notes,	
10	let's get started with the public hearing, with the	
11	recognition that both you and the Applicant will, after	
12	we close the public hearing, have the opportunity to	
13	comment.	
14	So, please state and spell your name for the	
15	record.	
16	MR. SOYLEMEZ: Sure. My name is Mustafa	
17	Soylemez, S-o-y-l-e-m-e-z. I live at 407 Bolsa Avenue,	
18	and I do have a written prepared statement for the record	
19	that I'd like to read to you.	
20	However, before I get there, Mr. Allen, I'd	
21	like to make two points, actually counter-points, to the	
22	Applicant's claims. And they are very, very specific,	
23	but they are just fallacies as he described them.	
24	First of all, he stated that Orange Avenue, the	
25	top of that graphic or picture you see there, is mixed	
		70

use and that is patently false. There are townhomes located right across there.

What I believe the Applicant was trying to say is that Old Newport Boulevard, which is actually on the left side of the picture, is multi-use, and that is, in fact, true. However, as you can see, the properties in question are Orange and Clay, not Old Newport Boulevard. So that's number one.

MR. ALLEN: Right.

1.2

2.5

MR. SOYLEMEZ: Number two, I challenge his definition of what a complex or an institution is. One thing he artfully neglected to mention to you is that the back of all three properties are open, meaning it's an adjoining property. This, by very definition, creates a campus feeling. That is what a campus is, okay? It is unrestricted access. That's, in fact, where most people go to convene and smoke and talk and discuss, and things like that. Those are the two points.

Okay. Now, I'll read my written statement.

As the City is aware, the owner is operating without permits.

MR. ALLEN: I'm going to give you an extra ten seconds, but I wanted to say -- because I forgot to say it in the beginning -- each person has three minutes to make their comments.

MR. SOYLEMEZ: This is exactly three minutes, 1 so let's start right now, okay? 2 As the City's aware, this owner is operating 3 without the permits. Whether it's NBMC or others, there are also many Building Code, Fire and Zoning violations. 5 This operator opened a facility during the moratorium, 6 and has been violating not only the letter but the spirit 7 of our law since Day One. 8 I know all this, because I have lived 25 yards 9 away at 407 Bolsa for the last four years, and I see what 10 goes on there daily. Today, I'm not going to speak about 11 those violations. The City will address those issues. 12 Rather, I'll focus on the direct negative 1.3 impact the situation has had on my home life and 14 community. Most importantly, it's altered the 15 composition of our neighborhood, which I believe is at 16 the very heart and crux of this hearing. 17 There are now approximately 40 living in a 18 footprint that was designed and zoned for two 19 single-family homes. This operator has illegally 20 transformed two dwellings originally designed for 12 or 21 less, six in each home, into an illegal complex that 22 23 houses 40. What kind of impact does this thing 24 overcrowding have on me? Consider the metaphor. 25

1	of a car on a side street joining traffic on a highway.
2	During non-peak times, there are generally no problems.
3	A car simply gets on the ramp and joins traffic
4	seamlessly.
5	But what happens, say, at 5 p.m., during rush
6	hour? The amount of cars wanting to get on the highway
7	doubles, quadruples. And pretty soon, cars are
8	completely backed up. Traffic stops. Noise increases.
9	Pollution increases, and the delays melt.
10	Why does this happen? Because the roads and
11	the area in general just aren't built to handle this.
12	It's inevitable. When you exceed something's design
13	specs, you'll get systematic failure. That's exactly
14	what's happening in Orange and Clay, and it pervades into
15	all parts of our essential life.
16	People coming up at all hours, foot traffic,
17	noise, smoking, trash, constant deliveries, cars
18	doubled-parked. It's incessant and it's completely
19	disrupted our neighborhood. Here's some specific
20	examples.
21	First of all, there's always lots of noise. At
22	least four times in '08, I've walked over there to ask
23	members to be quiet. Or on one occasion, when I asked
24	for the person's name, they refused. This happened in
25	late July of '08

1	Second, there's always trash on the street on
2	the front. There's no one that can help over there.
3	There's no super. There's no manager. There's no
4	accountability.
5	Third, we have Bolsa Park where children are
6	very close by. It is 40 by 50 feet long. Group home
7	residents like to walk over there, smoke, and then
8	discard butts in the stand, even in front of kids. I
9	know these individuals
10	MR. ALLEN: You need to wrap, and you're going
11	to submit your written comments?
12	MR. SOYLEMEZ: Yes, sir. I know these
13	individuals are from the complex, because I personally
14	have seen them walk from the homes to the park. Just
15	today, as I measured the dimensions of the park, I found
16	these. The pack was on the slide, and the butt was in
17	the sand. And this is very common. There are more
18	example, but others will share them.
19	To close, I ask the fancy, high-priced attorney
20	over there, how long did he spend at the property really
21	witnessing these things? Did he spend years? Months?
22	Weeks? Even days? Okay. Did he spend any time there at
23	all? Well, guess what? I have been there, and I live
24	there. And, therefore, I've been noticing these things
2.5	day and night for years.

As such, I believe any defense of the situation
by the attorneys and operator must be heavily discounted.
Whose testimony is more material? Who's in a better
position to account for the communities impact than me
and my other fellow residents? Attorneys who fly in from
D.C. on the day of hearing, or people who actually,
honestly and legally live there day in and day out?
As such, I hope you'll strongly consider my
request to not grant this operator the reasonable
accommodation.
Thank you.
MR. OBBAGE: Good afternoon. My name is David
Obbage. Last name is spelled O-b-b-a-g-e.
I would also like to respond to one of the
things that the Applicant's attorney had just mentioned,
but I'd like an extra 10 seconds, if I may.
I'd like to talk about that concept of loading
up. Well, the Applicant is accusing the City of loading
up on the conditions and requirements imposed on this
property. The loading up actually started when the
operator decided to load up the number of occupants on
this corner at Clay and Orange.
As I said, my name is David Obbage. I live at
3307 Clay Street, which is next door to the three
building sober living compound located at the corner of

Clay Street and Orange Avenue in Newport Heights.

Over the past two years, our community has expressed its concerns about the operation of this facility and the negative impacts that it has had on our neighborhood. The primary reason that we are opposed to this group home facility is based on facts and not speculation.

For example, on the morning of November 6, 2007, an officer from the Orange County Sheriff's Department came to my home at 7 o'clock in the morning looking for information about a resident from 3309 Clay Street, which is located directly next to me and is part of the boarding house sober living facility that we are viewing today.

The officer informed me that the individual they were looking for was being sought by law enforcement for misdemeanor and felony drug-related charges. The officer also informed me that these type of suspects are allusive and hard to find because they move from house to house within the drug and alcohol group network in Newport Beach.

What about the issue of overconcentration?
We're not sure how many recovering addicts are actually
living in this facility. And we're now estimating that
there are almost 40 people that are living in the three

1	houses at any one time.
2	This corner used to have two homes with two
3	families living on them when I bought my house. Now we
4	have three buildings, accommodating up to 40 people
5	living there. And is this what the City of Newport Beach
6	intended when they established the R-2 Zoning District
7	for this area and this neighborhood?
8	Another legitimate concern we have is that the
9	triplex of sober living homes is located one block from
10	our local nursery school. Who is conducting the
11	background checks on the individuals that are living in
12	the facility?
13	There have been several other instances of loud
14	profanity, secondhand smoke problems, and suspicious
15	activity that have occurred since this operator bought
16	the property and started operating a boarding house, and
17	now it's a sober living facility.
18	I urge to you deny this application and force
19	the Applicant to adhere to the zoning requirements and
20	Building Codes that are in place for our community. I
21	appreciate your giving me the opportunity to address you
22	today at the hearing.
23	Thank you very much.
24	MS. FABIAN: Good afternoon, Mr. Allen. My
25	name is Lisa Fabian, F-a-b-i-a-n, F, as in Frank. I

reside at 3301 Clay Street, which is right on the corner closest here. And I want to share a couple of issues that have impacted my neighborhood, myself, and my family.

Number one, a couple of years ago, I observed a young gentleman that was living in his car on the side of my home on Bolsa and Clay. And for two weeks, I tried to catch this individual, who, by the way, was doing drugs in his car. I witnessed, from my second floor bedroom, he was smoking. He had needles. I don't know all what he was doing.

But I did report it to the Newport Beach Police Department. And after two weeks, they finally found him about 11 o'clock at night sleeping in his car. They addressed this individual, and found in possession he had some sort of an address stating that he was a resident at 3309 Clay Street.

They approached the residence, knocked on the door. The gentlemen that were there would not open the door, as they said they would be breaking the law or the rule. So they were asked to come out through the back, identify the individual. And sure enough, they had identified that he was asked to leave the home, because he was actually doing drugs, and he was kicked out. So he started to live on the street next to my home.

22

23

24

25

Also, I did experience the 7 o'clock in the morning knock on the door by the sheriff, you know, interrupting our family lives. Also, smoking, trash. also I have two dogs that I walk two times a day. And I also observe an individual leaving one of the residence and hiding a bottle of liquor behind a plant at the park where the children play on Bolsa Street. I did pull the bottle out, and I don't have it as evidence right now, but I can tell you that that did occur. Also, there was an accident that occurred about but I'd like to read to you a statement that he gave to

probably last year sometime, and my neighbor is not here, me to represent on his behalf. His name is Tony Camacho, and he resides at 3305 Clay Street. Camacho is C-a-m-a-c-h-o.

Sometime in August of 2008, after an accident of a drunk driver crashed into the home on -- it's 492 Orange Street, this is -- my neighbor spoke with the owner, the senior and junior, regarding the crash.

And he smugly, as he was proceeding to clean the damage, stated that he would not be surprised if the City had sent or paid someone to crash in his property with a drunk driver.

I'd like to submit this to you as evidence that Mr. Camacho -- this was a conversation that he had with

this individual. And more importantly, this is the type 1 of person and type of individual that we're having to 2 deal with. Thank you very much. Now that we've heard from MR. RUSH: Bob Rush. 5 the residents local to the compound, I thought I'd come 6 up and just make a couple quick comments here. As a 24-year resident of Newport Beach, I've seen a lot of changes since 2000, the advent of 9 channeling drug and alcohol recovering addicts into our 10 neighborhoods. Some of this stuff -- some of the laws 11 are developing as we go forward. 12 I don't know that right out of the gate we're 13 going to be 100 percent, you know, fully developed in our 14 local Municipal Codes. So, you know, the expectation 15 that we have it perfect right out of the start is, I 16 think, unreasonable on the part of the Applicant's 17 18 attorney. Regarding the Applicant's -- some of the 19 statements the Applicant's attorney mentioned, he wants a 20 broad qualification. He wants a broad approval to be 21 considered. He wants broad approval, excuse me, on 22 reasonable accommodation request, and he wants to be 23 considered a single-family residential unit. 24

25

But I don't know of any -- there's no structure

in the City, no single-family structure in the entire City that houses 50 individuals. None. Yet, he wants this accommodation now to be considered.

2.3

Even if you got this reasonable accommodation, you still have basically -- you have basically two buildings that were built more like dormitories or boarding houses. And then you have a third -- you have a single-family structure at 3309 Clay.

But when it comes to Building and Fire Code, he wants to be specifically exempted because of some special criteria that he wants to apply. So he wants broad approving, but he wants specific exemption from the Fire Code.

Now, Ms. Wolcott failed to mention that the Fire Code -- State Fire Code and Building Code was recently defended in Federal Court, May of 2008. I think she probably had the specifics. But it was found to be non-discriminatory in its state, and it is applicable to all R-4's and all R-4.1's. That's Building Code and Fire Code classification, not to be confused with Zoning Code classification, which has this property as an R-2, which two -- two units.

We are here today based on one individual's word that he is treating drug and alcohol patients or ex-patients in this facility, one individual by the name

of Mark Manderson, I believe. And without his testimony or without his assertion that he's treating these individuals, we wouldn't be here, because this might be otherwise considered a boarding house or some other structure.

So -- I mean, I think it's critical to the hearing that we have some kind of attestation from the

2.0

hearing that we have some kind of attestation from the Applicant that this is, in fact, one hundred percent of these residents are truly drug and alcohol recovering addicts, and that there's no admission of other individuals that are not drug and alcohol.

And my last point that I'd like to make is that -- and this is my one last point -- I don't believe I've done a lot of -- I'm not an attorney. I've done a lot of reading on reasonable accommodation. I don't believe in all my readings of what reasonable accommodation is trying to do, I don't believe reasonable accommodation was designed to be an excuse for prolonged and intentional violation of laws, and that's what we have here.

We have a prolonged and intentional violation of a number of laws for a number of years. And now at the late stage, the Applicant is saying, "I'd like to now qualify under reasonable accommodation, because I'm only treating these addicts." And I don't think that

that's -- I think that's a misapplication of what the 1 intent of reasonable accommodation was designed for. I'd like you to please consider that. 3 MR. ALLEN: Thank you. Let's see. It's 4 4 o'clock, and we're schedule to go until 4, but we 5 certainly have a ways to go with public hearings. Does 6 staff have any input on that? 7 MR. KIFF: We don't have our room conflict 8 today, Mr. Allen. So we can continue if you wish. 9 MR. ALLEN: Good. Should we take a 10 short -- let's let our ex-council member go, and then 11 we'll take a short break. 12 MR. NICHOLS: I'm Dick Nichols, and I'm from 13 Corona del Mar. I'm familiar with the property, but I 14 haven't reviewed everything in the last little bit. 15 I would like to first bring up the single 16 housekeeping unit. I believe that the Federal law says 17 that a single housekeeping unit of six or less is -- we 18 consider that as a special unit. When it's over six, 19 that dropped, okay? 20 He's talking about 50. Single housekeeping 2.1 unit of 50, all of a sudden, has -- so there's no upper 22 limit on this. This was decided also in the lawsuit by 23 the City just recently. I mean, that's how they rated 2.4 Sober Living By The Sea. 25

The second thing I would say is that this is semi-ridiculous, because you've got two R-2 lots along Clay, and that's 18 and 20, and a single-family on Orange. And the point of the matter is, is that you can't take lots in any city in existence and say, "Well, I have these two, and they are altogether, so I just want to have this considered an R-4." That has to go through the City's zoning process.

And how in the hell is this guy has the audacity to say, "Well, I can just combine these altogether. And because I put sober living people in this thing, I'll just say it's a single household"? Now, there's no basis for any of those things to be done. This shouldn't even have ever gotten this far.

Then the second -- then another aspect of it is the two R-2 lots are joined. To my knowledge, that was never rezoned in the City. I was on the Board at that time, and that's not legal. And it wasn't enough room between the lots.

Now, they did give a little bit of extra space on Orange than I think that they needed to as a duplex there, because that would a side yard. But nevertheless, the space between the buildings is not 6 feet. And the tying together of the two as R-2's -- individual R-2's is illegal. I mean, that's not -- how that ever got through

this far is beyond me.

2.1

2.4

Now, when they did the R-1, then they wiped out the property line in the back. Well, so now they made this into a single lot, but it isn't zoned that way. I mean, this is -- can I make an apartment building on any three lots in the City?

Why don't I pick someone in Corona Del Mar?

That's good spot. Or somewhere else? And I'll just take three lots, and I'll make an apartment building out of it without rezoning or anything else. And I'll say, "Well, gee. Depends on who I put in it." This doesn't make sense at all is what I'm saying.

And the last thing I would say is as to Fire Safety Codes. The Fire Safety Codes are designed to make the people safe. These Codes are designed so that the people living in these structures will not get burned to death, that they will not have unreasonable lifestyle because of the fact that they are not living in a safe environment.

And so that's a State law, that the Fire Codes come down from the Fed. They are known throughout, and they apply to buildings depending on their usage. And this is a usage of 50? This is a hotel environment. This is not anything else.

Thank you.

1	MR. ALLEN: Thank you. Let's take five
2	minutes, and then get started again.
3	(Pause in proceeding.)
4	MR. ALLEN: All right. Back on the record.
5	MR. BROWNING: Good afternoon. My name is John
6	Browning. I live at 3256 Broad Street, which is just
7	around the corner from the compound.
8	And I would characterize this as it's not
9	really a request for a reasonable accommodation. It's a
10	request to allow a hotel or real a prison in our
11	residential neighborhood near a nursery school and down
12	the street, about three or four blocks, from Newport
13	Heights Elementary School.
14	The lack of parking around here, the street
15	parking, is something always filled. I've got a
16	6-year-old and an 8-year-old who are, you know, new bike
17	riders. Not very good bike riders. And this is an entry
18	to a residential neighborhood, so that's car traffic.
19	And when you have cars parked on both sides of
20	the skinny street, Clay Street, you try to cross over on
21	Bolsa, it's really dangerous. And it's because of these
22	cars, because there's 40 or 50 people living here parking
23	their cars out on the street.
24	The solution offered by the staff is to allow
25	them 12 units or 12 beds. But it's a solution that's

based on trust of people that have proven that they can't be trusted. They have started these homes without authorization by the City. They've violated Building Codes. The staff report details many instances.

1.2

They've opened up a sober living home across the street from my house that people walk from the Clay Street address down Bolsa and left on Broad, back and forth all the time. And that part -- that property is not subject of today's hearing, but it's the same property, the same people, and there's people going back and forth all the time.

The concept of institutionalization is a concept that's applicable to how these people are living. The concept of a sober living home is to put people in a residential neighborhood, in a residential setting, and allow them to interact back into society, which is fine.

But when you put people in a hotel or a dormitory with, you know, 40 people or 50 people in these small houses -- these aren't 20,000 square foot hotels.

These are small. They swished them together. That's the institutionalization aspect.

And then finally, I say that we need to stop pretending that these are disabled people. They are criminals. They are here on probation. The prisons are crowded, and this is a slippery slope. Wait until the

Governor orders or the prison system orders the release of drug offenders and felons.

Where are they going to put them? Out on street? No. They are going to a sober living home claiming that they have a drug addiction, when it's really an addiction to money and an addiction to committing crimes. And those are the people that are going to be coming to our city. And it's just a matter of time before one of these people commits a real serious crime on a, you know, a kid from Newport Heights.

Thank you.

2.2

 $$\operatorname{MS.\ MORRIS}$  : Good afternoon. My name is Lori Morris, M-o-r-r-i-s.

I just wanted to begin by saying that the Applicant from the beginning has -- this has been many years we've been watching this house, several years.

Longer than 2007. From the time they started building this compound, you know, watching it as it's being built, looking at the processes that it's going through, they never followed City procedures as far as their permitting.

I mean, I'm sure the City has brought forward, you know, all -- and there's pages of these problems in the permit with Clay. I was able to bring up -- this is Clay, I think -- no, this is Orange and also Clay Street.

1	It's constant. And it was just like a
2	catch-me-if-you-can attitude. They would go about their
3	business. They would go into their offices until
4	somebody would report them. They would start building
5	without permits until somebody would report them.
6	So this Applicant from the beginning has been
7	untruthful in their putting forth what they want to have
8	happen at this facility, and it is a large group home
9	facility.
10	It began with "My parents are going to be
11	living there." Then it went to and this is said to
12	the City employees that asked, "Okay, what's going on
13	here?"
14	"My parents are going to be living here." Then
15	it's, "No, no. I'm going to turn it into a rental, but
16	I'm going to dictate what those renters are going to be
17	able to do. One of those is they can't drink."
18	I have a rental. I can't legally tell my
19	renter he can't drink. That's illegal. It's a rental.
20	He can do he's paying his rent.
21	Smoking, I think there's some issues with the
22	smoking back and forth. But each time he was caught and
23	said, "Well, you can't or you can't do that, or you
24	can't say this," he would then move on to what was the
25	next best beneficial answer there was for him.

We've got to this point -- I mean, by his own admission, he's brought this up -- this informational letter alone should be grounds for denial. Over and over he has said, you know, "It's this one thing." You know, "No alcohol. Most residents are using their bicycles or will be using their bicycles."

How can he state that with conviction, say that I've got this rental, and they are going to be using their bicycles? You can't say that legally or put across to the community, "I have 50 people, and they are all

going to be using a bicycle." That's not true. I mean, that letter alone shows who the Applicant is. This is what he put forth, and it's in the record.

Now, you know, you move forward with the

Now, you know, you move forward with the operating, and this is -- and he wants to operate it as a family style. As Dick Nichols brought up, fifty people is not family style. That's -- the definition by ADP and everybody else, Federal and everybody else, six and under. And that is agreeable.

No one here wants to discriminate against people who want to get well, that have an addiction and want to get well, and should and are allowed by Federal law to do that an our neighborhoods.

What they have created with this is an institutionalized medical facilities. Because these

1	people, even though they are after you know, they are
2	done being going through the process, they still have,
3	you know, issues that have to be accounted for.
4	So I would say that this Applicant has been
5	untruthful to the City. They cannot you cannot move
6	forward with what they are giving, even their attorney,
7	as truth. So I ask that you take that into
8	consideration, and I thank you for your time this
9	afternoon.
10	MS. KOHLER: Hi. It's Cynthia Kohler.
11	I've been doing this for quite a few years, and
12	that's just one thing, Mr. Allen, I wish you consider.
13	He wants to be considered a family. And there's 50
14	people in this home. And who knows who are in these
15	homes? How do we know who are in these homes? He
16	doesn't answer to anybody. He's not licensed. So how do
17	we know who is actually in these homes?
18	He's asking for special accommodation. Well,
19	he doesn't want to give up his information of who he is
20	housing. So why should we do this for him after he
21	hasn't followed the rules, and we have no idea who are in
22	these homes.
23	The other consideration is that every single
24	operator down here on the Web site advertises alternative

sentencing. That is my concern and has been my concern

all along. They get by probationary parolee because of
alternative sentencing. And not only do they have drug
and alcohol problems, they can have forgery, spousal
abuse. And they get that expunged if they go into these
homes. So I just wish you would consider all of that
when you take this in.
Thank you.
MS. OBERMAN: Denys Oberman. I'm a resident,
and I'm speaking on behalf of a citizens' group,
Concerned Citizen of Newport Beach.
The group became aware of this facility almost
three years ago, because the residents had contacted us
and told us that they had issues with this compound being
built, and that there were clearly issues of Code
violation, which they reported repeatedly to various
departments of the City in efforts try to get this
checked and get it under control before construction was
completed and was occupied, and there was no results that
were forthcoming.
During the Ordinance development process, the
attorney that we had gotten to help to work with the
City, which the City asked us to do and we did, to
develop ordinances also observed this facility and
reviewed the permits and physically reviewed the

facility, and -- along with the forensic architect, did,

1	in fact, confirm that the facility had numerous Code
Τ	
2	violations.
3	You know, neither I, personally, or our group
4	are aware of all the things the City has done, but the
5	bottom line of it is, as a number of people have already
6	testified, this business operator has demonstrated
7	factually a disregard for the laws of the City. There is
8	nothing in the law anywhere, in Federal or State law,
9	that obligates the City to provide any sort of
10	accommodation to a business that deliberately thumbs its
11	nose at the laws of the City.
12	These laws are so far away from being
13	discriminatory to individuals, the City of Newport Beach,
14	and in particular in this impacted area where this
15	facility is located, is more overconcentrated than any
16	other city in California.
17	And furthermore, the City of Newport Beach for
18	the last nine or ten years has enforced no regulation
19	against group residential uses of this type, residential
20	care and treatment facilities, or non-state licensed

The City endeavored to make a fair and equitable Ordinance and also fulfill its duty to protect the public when it enacted an Ordinance in 2007, actually beginning of 2008. Unfortunately for us all, at that

21

22

23

24

25

sober living homes.

1	point in time, there was already a condition of severe	
2	overconcentration, which institutionalized the Balboa	
3	Peninsula, West Newport, dense residential neighborhood.	
4	And now we're confronted with trying to deal with that.	
5	But the bottom line of it, Mr. Allen, is that	
6	this operator, as a business has nothing to do with	
7	the individuals in the facility the business has been	
8	repeatedly in an illegal status.	
9	And so we feel that the fair and reasonable	
10	thing is to deny the reasonable accommodation, because	
11	the business is there on an illegal basis and has been	
12	since its inception.	
13	Thank you, sir.	
14	MS. HANNA: My name is Mary Hanna. I live at	
15	511 Orange Avenue.	
16	He addressed the complex across the street.	
17	MR. ALLEN: Would you spell the last name,	
18	please?	
19	MS. HANNA: H-a-n-n-a.	
20	MR. ALLEN: Thank you.	
21	MS. HANNA: Just for the record, it's not a	
22	complex. There are seven townhomes. There are 2.1	
23	person per unit. So I don't think it's as dense as he	
24	was talking about, the 50 people across the street.	
25	I brought my property in 1998. At that time,	
		94

1	there was one single house on Clay. I, with all my other
2	neighbors, were concerned when they started building
3	these two huge homes. And you could tell from the
4	outside there was only one car garage. I mean, you can't
5	build a house like that in Newport Beach and not have but
6	a one car garage.
7	And I went to the City and said, "What is this
8	going on? We've got this huge home, supposedly, and no
9	parking for this home." And they said, "Oh, well, they
10	did this and they did that."
11	Well, unfortunately, I live across the street.
12	And my family and my visitors have no place to park,
13	because they're parking across the street. We have way
14	too much trash, way too much parking. It's impacted our
15	neighborhood.
16	It's terrorized our families, because these
17	kids and these young teenagers with tats, and everything
18	else that you see every place else, but they are nasty,
19	and they are very abusive, and have been to my family and
20	have been to friends of mine. And I just find it
21	almost I want to say terrifying to walk outside,
22	because you never know what you're going to see across
23	the street.
24	Anyway, I just I think you're doing a

95

disjustice to your citizen, to your people you pay taxes

1	here, and to the people that bought in and have lived in
2	here and wanted to go along and be family and take care
3	of a family and do the right things, and then you let
4	these people walk in and just destroy our neighborhood.
5	I just think it's despicable.
6	MR. ALLEN: Is that for today? No one else
7	needs to speak?
8	Okay. Let's close the public hearing. And at
9	this point, let's let the Applicant respond to these
10	comments, if he wishes to do so. And then the City can
11	respond to both the public hearing comments and the
12	comments that the Applicant has made both before and
13	after the public hearings.
14	MR. POLIN: Thank you, Mr. Allen.
15	Who asked me earlier about comment that the
16	City attorney made that we did not provide financial
17	information? This is let me tell you.
18	This is the question on the reasonable
19	accommodation application.
20	"If the applicant is a developer/provider of
21	housing for individuals with disability with
22	a disability, please explain why the requested
23	accommodation is necessary to make your
24	facility economically viable in light of
25	relevant market and market participants.

Please provide documentation, if any." 1 Our response was, 2 "Pacific Shores objects to this request, and 3 Applicant for reasonable accommodation is not required to compare or make necessary in light 5 of" -- my printer went heywire here -- "in 6 light of relevant market and market participants. 8 "Accordingly, it's not" --9 Basically we said it's not our place. It's not 10 our job to provide data comparing the relevant market and 11 12 market comparisons in order to request this request to be considered and be granted. Basically what it says is 13 14 they want to compare -- they want us to compare us to 15 other facilities. First of all, it's not our job to go out and 16 17 compile this data. The relevant inquiry would be is, is the accommodation -- are you requesting the accommodation 18 to make your facility financially viable? And leave it 19 20 at that. If it was, we would have provided the 21 22 information, but that isn't what it requested. It wanted a comparison of surrounding facilities, and do we -- and 23 for us to gather data. That is not the responsibility 24 25 nor -- of an Applicant or requested for reasonable

accommodation, nor is it, I believe, required by the Fair Housing Act to do so. This is something the City created and made as a condition, and we objected to it. And it's not necessary to provide.

So, it is misleading for the City to say that we refuse to provide financial data when that is not what the question was. And that is not what the requested information was.

Mr. Allen, I've been doing this kind of work for almost 20 years. I participated in numerous -- been present at numerous hearings, either Zoning hearings or hearings before City Council. I have heard citizens who have a stake in their community come forward and say what they believe should be done, expressed their fears, expressed their concerns.

And to be honest with you, sir, it doesn't change from community to community. I'm not saying that what has been said here is right. I'm not saying what has been said here is wrong. What we have here is the essence of participatory democracy. Everybody gets an opportunity to come up here and say their peace, regardless of if I agree with their opinion or regardless if I disagree with their opinion.

However, you have a different job as a decision-maker. Because your job is to put aside the

unsubstantiated fears and unsubstantiated stereotyping that you hear, and deal with this issue on the facts that are presented and the law as presented to you.

It puts you in a difficult position, because you're not supposed to be swayed by emotion and not supposed to be swayed by numbers, comparing the numbers for or comparing the numbers against and the reasons for it.

This is comes as no surprise to you that this is a hot button issue in Newport Beach. It has generated a lot of anger. It's generated a lot of animosity. It's generated rooms and rooms to carry what I -- the City provides me on a flash drive, because the paper is too much.

It boils down to what the law requires and what the facts are. And sometimes what the law requires and what the facts are don't go along with what the public sentiment is. And that's basically what we have here.

I don't think it's necessary for me to address anything that the people have said here, because, as I said before, they have a right to say it, whether I agree with it or whether I don't agree with it. I think what the City has compiled, what I have brought forward, is

what you need to consider.

I will say to you -- and at the sake -- at the risk of repeating myself from what I said earlier, the City's recommendation of granting a reasonable accommodation that reduces -- that basically shuts down two houses and reduces one house to 12 beds is not a reasonable accommodation. I'm not saying, maybe, 50 beds is a reasonable accommodation.

However, I think it's necessary that all three houses remain in play; that they be available to provide housing for the recovering addict and alcoholic. The Fair Housing Act recognizes the commercial nature of providing housing and providing -- group home providers. It recognizes that -- recognizes not everybody is doing this for strictly altruistic motives.

Not everybody who comes and applies for reasonable accommodation is a nonprofit. And sometimes the only choice is to go to a -- what some courts have called a commercial facility. But commercial facilities are entitled to a reasonable accommodation just as much as a non-commercial facility is.

There are issues that have been raised by the City. And to a certain extent, I think by the citizens as to who is running this, is it how it's going to be run, that, you know, can be sat down and discussed with

the City and worked out.	We're not	trying to say	that,
you know, we're above the	law. But	I don't think	the
City is above the law eith	ner.		

**(** 

Is there issues that, obviously, in terms of condition that the City wants imposed, that I don't think are necessarily, reasonable or legal in terms of what it wants to do. But those are things that can be worked out.

The bottom line is, Mr. Allen, is our request reasonable? And I submit to you that it is. Regardless of which way you go, Mr. Allen -- and it's not going to cause an undue burden, financially or administratively. I think that's already been conceded. And it's not going to fundamentally alter the City's Zoning Code.

And it's necessary so that people who are living there can continue to live there and know that their sobriety and their recovery will not be interrupted because of eviction.

What the City wants you to do is say, "We'll give you 12 beds. Everybody else has to leave." Well, that's causing a massive disruption in the continuity of one's recovery. And the eviction is not because of being forced to leave, and it's not because of anything these individuals have done. It's because this is what the City wants it to be done. It's forced loss of housing.

But one of the things that the courts always				
analyzed is that, is the Applicant requesting the City to				
provide them with housing, or they asking for an				
accommodation? We're not asking the City to provide us				
with housing. We're not asking the City to build us				
housing. We're asking the City to let us remain. That's				
what we're asking the City to do.				
Thank you. I don't know if you have any				

questions. All right.

MR. BOBKO: Good afternoon, your Honor. going to make a couple of quick comments.

First one is, is Mr. Polin, with the rhetorical flair, said, "We can just substitute 'race' any place where we are talking about disabled people." And I'd like to bring that back down a little bit and say let's substitute single housekeeping unit, because that's really what we're talking about here, and it has nothing to do with anything else, really.

And to that more directly, the idea that somehow folks are being denied the right to live in specific zones is actually not true. The only people who have the opportunity to have a group residential use in a residential zone are folks who are able to seek a reasonable accommodation or sober living homes. We don't allow any of the other types of uses there.

1	We don't allow boarding homes, sororities,
2	fraternities. None of those type of uses are allowed at
3	all. So this type of use has actually gotten a more
4	favorable treatment under our Ordinance than any other
5	type. In fact, no other type is permitted at all.
6	The idea that this is a one-time event, and,
7	well, if we let this go with the single housekeeping
8	unit, you know, it's just this one time. There's an
9	Ordinance that the City Council has agonized over where
10	the where the complete the call of the Ordinance, the
11	subject to which the Ordinance is directed, is this
12	specific situation.
13	So the City again, I don't think we need to
14	emphasize this too much, but our position is that if we
15	do toss the single housekeeping unit requirement
16	overboard, then, in fact, this is going to fundamental
17	alter the purpose of this Zoning Code.
18	The idea that someone is going to be put out on
19	the street tonight if your decision is not what the
20	Applicant asks for, I think is, again, somewhat inflated
21	rhetoric. In fact, that's not the case at all. No one
22	will be evicted.
23	The City has undergone this process over quite
24	a period of time, and there has been due notice given to

the Applicant, whereby the implementation -- and

1	Mr. Kiff, I'm sure, can go through this in atomic detail.
2	But there's really three different things that can
3	happen.
	The implementation of the Ordinance would not
4	-
5	take effect until the last contract with the business
6	expired, the lease expired, they could seek an
7	amortization period, which would extend the time period
8	so that no one was put out, or they could seek a
9	reasonable accommodation or use permit. And, of course,
10	as the Applicant has already stated, they did not seek a
11	use permit.
12	So that the idea that someone is in a bed
13	tonight or might not be in that bed tomorrow is a bit of
14	an exaggeration, I believe. There will be no immediate
15	impact on these folks. In fact, the Applicant has had
16	time to plan through that.
17	The last point I want to make is the Applicant
18	has suggested that the case of Oxford versus City of
19	Edmonds stands for the proposition that it is illegal for
20	the City to state how many folks can be in a particular
21	house or room and what not.
22	And although I claim I think I'm sure,
23	Mr. Polin might have been the one to actually argued that
24	case and I don't claim to have the intimate knowledge of

it that he does, I do have the case here in front of me.

1	And as I read through the Code that was actually
2	questioned there and this is from 514 U.S. 725,
3	Supreme Court case, 1995, the Code at issue there said,
4	and I'm quoting now:
5	"The Code provides that occupants of a
6	single-family of single-family dwelling
7	units must compose, quote, a family. And
8	defines family as, quote, persons without
9	regard to number related by genetics, adoption
10	or marriage, or a group of five or fewer
11	unrelated persons."
12	I don't think the City of Newport Beach is
13	anywhere close to that. We're talking about a single
14	housekeeping unit, where the only thing that has the
15	only relation has to be a common lease, really, when you
16	get down to it.
17	The other thing, if you look at our Code
18	Section 20.91A.050, the section where we talk
19	about and the exact I'm sorry. Let me go back,
20	20.91A.050(c)(2). And our Code states:
21	"There shall be no more than two residents
22	per bedroom, plus one additional resident.
23	Notwithstanding upon request by the Applicant
24	for additional occupancy, the Hearing Officer
25	has the discretion to set occupancy limits

1	based on the evidence provided by the Applicant	
2	that the additional occupancy is appropriate at	
3	the site."	
4	So there's no hard and fast rule. We're not	
5	asking for blood tests. The Hearing Officer has the	
6	discretion to find up or down from that.	
7	Moreover, the whole title of that section is	
8	Development and Operational Standards. This is simply a	
9	planning guide. So it gives the planners an opportunity	
10	or a chance or a baseline from which to make	
11	determinations that otherwise would be, you know, almost	
12	unmakeable.	
13	So the idea that the City has gone and asked	
14	these operators only to put so many people in each	
15	bedroom and has somehow related that to the genetics,	
16	adoption, marriage, or a group of five or fewer persons,	
17	that question in the City of Edmonds case, is again	
18	making a bit of a stretch.	
19 .	So I will now lateral to staff, if they have	
20	any of the particular building or staff-type related	
21	questions that perhaps you'd like to have addressed. I	
22	will relinquish it to them.	
23	MR. ALLEN: Ms. Wolcott, are you going to talk	
24	at all?	
25	MR. BOBKO: She is, of course.	
		106

MR. ALLEN: Will you allow that? 1 MS. WOLCOTT: Try to stop me. 2 MR. BOBKO: I won't. 3 MS. WOLCOTT: I wanted to clarify the recommendation as to the current residents. If you look 5 at page 38 of the staff report and the summary of request 6 number five, it says, 7 "As to the current residents, all five 8 required findings can be made. The Applicant 9 did not report the average length of resident 10 stay. Staff recommends granting an 11 accommodation that permits all current 12 residents to reside in the facility for the 13 remaining duration of their stay, to a maximum 14 of six months. Staff recommends that as 15 current residents complete their stay and 16 clients move out, facility operation be 17 consolidated into a single dwelling unit with 18 12 resident clients and one resident manager. 19 Consolidation should occur as soon as possible, 20 within a maximum period of six months from the 21 day the Resolution of Approval if adopted by 2.2 the Hearing Officer." 23 So that was the staff recommendation. There 24 was no move to evict current residents. 25

MR. ALLEN: What if it's not adopted by the 1 2 Hearing Officer? MS. WOLCOTT: If it's not adopted by the 3 Hearing Officer, then that is something that would be dealt with in an abatement setting and amortization extension. There's a number of ways to deal with that in 6 the Municipal Code. 7 MR. ALLEN: Okay. 8 MS. WOLCOTT: I would also add one thing on the 9 necessity element. Mr. Polin has discussed the fact that 10 he feels that the reasonable accommodation, because it is 11 it has been asked, has to be granted. And I would remind 12 the Hearing Officer of the requirements of necessity and 13 14 of reasonableness. What's reasonableness? A finding of 15 reasonableness requires, as we've discussed, that it not 16 fundamentally undermine the purpose the Zoning Code. 17 And necessity, if you look at the case of 18 Lapid-Laurel, LLC, v. Zoning Board of Adjustments of the 19 Township of Scotch Plains, 284 F.3d, page 442, 3rd 20 Circuit, the Third Circuit Court of Appeals held that 21 it's the plaintiff's burden to show necessity, and said, 2.2 "The necessity element requires the demonstration of the 23 direct linkage between the proposed accommodation and the 24 equal opportunity to be provided to the handicapped 25

1 person."

2.4

They specifically, in the Lapid-Laurel case, look at a 95-bed elder care facility. And they did find that in this case, the elder -- the elderly disabled people did require accommodation in order to live in a residential zone. In that case, it's specifically a single-family residential zone.

However, the Court specifically said that as to the size of the facility, they had not demonstrated necessity as to the size. They had said that in order to show that, the applicant would have to show that the size would serve a therapeutic purpose and would, therefore, ameliorated an effect to the hardship of the handicapped.

And second, that the facility's size was necessary for the facility's financial viability. And the Court equated financial viability with giving the disabled equal opportunity to live in a residential neighborhood.

And I agree with Mr. Polin that the question on the reasonable accommodation application is perhaps not stated as clearly as it could be. But the information we were looking for is, what do you need to be financially viable? Because that is what the Federal cases require us to look at.

Thank you.

1	MR. ALLEN: One question. You're recommending
2	the Hearing Officer grant the non-conforming use
3	determination; is that true?
4	MS. WOLCOTT: As we interpret it to be.
5	MR. ALLEN: Well, that's what we need to
6	address. Because it's clear that Mr. Polin has quite a
7	different interpretation of that than you do.
8	MS. WOLCOTT: After hearing Mr. Polin's
9	interpretation, it sounds like he would like to have the
10	laws that were in place prior to January 22, 2008,
11	applied to his client's facility
12	MR. ALLEN: Right.
13	MS. WOLCOTT: which he was welcome to try to
14	comply with any time prior to January 22, 2008.
15	And I don't believe that the way the Code is
16	written is that non-conforming uses in residential
17	districts, any of them, go through this process. That's
18	what our Code allows. And we have not analyzed an
19	accommodation from that and treating them as they would
20	have been treated in 2007-2006, because it was not clear
21	that that was what the request was.
22	MR. KIFF: Clarification, Mr. Allen,
23	Ms. Wolcott?
24	It's my understanding that if they were granted
25	the right to be a non-conforming use, they would go back
	110

to the point at which many of the folks who have gone through the use permit process would, in other words, be required to go through that use permit process. Because that ordinance is non-conforming uses in residential districts, and it sets forth the use permit process.

Is that your understanding, too?

MS. WOLCOTT: Yes. We went through the on-the-spot analysis of how we would treat this facility if it was 2007. Every facility that had more than seven residents and was reported by the Applicant, and that appears to be all of them, would have been required to apply for a Federal Exception Permit from the City.

The Federal Exemption Permit had some different standards. We still, you know, have those standards around. But it was very similar to a combination -- the FEP was very similar to a combination between a use permit and a reasonable accommodation. And it did have some elements in it that could be considered -- they weren't required to be considered.

But an element -- one element that could be considered is whether a campus was created. Under the definition in place at that time, this would have created a campus, because it was three or more buildings that were using one building for a common purpose for all the rest of the residents. As I understand, they were all

1	
1	using the pool and patio area.
2	MR. ALLEN: Okay. All right. Thank you.
3	MR. KIFF: I have just one question of the
4	Applicant. I'm confused as to how many people reside
5	there today. Mr. Polin spoke about he had a couple
6	different statements where he said 38 people would be
7	evicted. I just want to understand how many people
8	reside there today, and if 3309 is not occupied, but 492
9	Orange and 492 1/2 Orange are occupied?
10	MR. POLIN: We don't have that information
11	today. As to the exact numbers, we think it's somewhere
12	in the neighborhood of between 30 and 40.
13	MR. KIFF: Thank you.
14	MR. POLIN: And there's I want to correct the
15	record on something. And I'm always doing this about the
16	City of Edmonds case.
17	City of Edmonds case was about an
18	occupancy it was about an exemption in the Fair
19	Housing Act that had to do with occupancy standards. It
20	didn't have to do with the definition of family that
21	Mr. Bobko read. The City of Edmonds tried to state that
22	their definition of family and their cap of unrelated
23	persons in there constituted an occupancy requirement
24	which would exempt it from the Fair Housing Act.
25	Supreme Court said no. An occupancy

requirement is basically a square-footage-type 1 requirement as applied equally to related and unrelated 2 persons alike. It has nothing to do with the definition 3 of family. So I just wanted to correct that. Thanks. 5 Oh, one other thing in terms of what 6 Ms. Wolcott said. This notion of we're not kicking anybody out today is somewhat of a misnomer. Basically 8 they are saying you've got six months to leave. It has 9 nothing to do with the preparation of what's going on. 10 We have applied for a reasonable accommodation. 11 We expect to get a reasonable accommodation. So, what 12 has occurred and what are -- what is required of Pacific 13 Shores and the people who live there has nothing to do 14 with, "Well, you know, they didn't apply for a use 15 permit, so they are out of luck." You know, the Code 16 provides another mechanism for dealing with this, and 17 that's with a reasonable accommodation process. 18 So why should the residents be penalized 19 because they opted to go for reasonable accommodation as 20 opposed to a use permit? And why should the residents be 21 penalized and be able to go to sleep tonight knowing 22

113

that, "Well, at least I'm going to be here tonight," but

knowing that at in six months they are out of there?

That's an unreasonable condition, and that's still an

23

24

1	eviction.	
2	MR. KIFF: A couple more brief comments,	
3	Mr. Allen.	
4	Mr. Polin mentioned one statement about that	
5	the City's Ordinance is designed to, quote, keep them out	
6	of sight, meaning people in recovery. And I wanted to	
7	remind, at least, the public this process and this	
8	Ordinance is approved to date 233 beds with more in the	
9	pipeline. And they're beds all throughout our community,	
10	especially on the Balboa Peninsula, where the	
11	overconcentration exists.	
12	And then there was a gentleman, Mr. Browning,	
13	who had stood up and said that these are pretend disabled	
14	people. And I wanted to reject that comment officially.	
15	The City recognizes that folks in recovery are disabled	
16	and entitled to the housing protections under the Fair	
17	Housing Act.	
18	With that, I think staff has concluded its	
19	comments.	
20	MR. ALLEN: All right. Thank you all for	
21	participating and presenting your thoughts and ideas and	
22	all the legal analysis. And now, it's my turn to decide	
23	what to do here.	
24	And I believe this facility, as it's been	
25	analyzed by the staff, is basically not entitled to the	
		114

reasonable accommodations that are being sought.

2.2

As we've learned repeatedly here, the law requires government agencies to grant reasonable accommodations to disabled persons, and it's clear that, in all of these situations, the staff has not questioned whether the occupants of these units are now not disabled. So there's no question before this Hearing Officer about whether we're dealing with disabled individuals or not. We're accepting that they are.

So in each of the findings that need to be made, the finding will be made that disabilities are present.

The real questions have to do with the necessity for the reasonable accommodations and whether the requests are reasonable in each instance. The staff took the first two together, request one and two, because the definitions so intertwine as between the single housekeeping unit and the request to be classified or treated -- or not to be treated, I should say, as a residential care facility.

And I think that it's very clear that the definition of the single housekeeping unit is simply not met by these uses. Mr. Polin objected to the notion that one of the requirements of the City is that the occupants all be subject to one lease. But that is the definition

that the City has adopted. And so far as I know, it's not illegal. Whether it's being litigated is not my area to be concerned with. I haven't been told that it's illegal, and, therefore, I accept that it is.

2.0

I think the most compelling part of the request number one and two is that there is -- it is a fact, in my estimation, that there would be a fundamental alteration to the City's zoning scheme if the single housekeeping unit definition and the reasonable accommodation or, excuse me, the classification as a residential care facility was disregarded.

Because it appears to me that the residential zones are pretty much based upon, in substantial part, those definitions and requirements. And the staff report does a good job of setting that out. So that's really a fundamental part of my determination.

All the usual issues, as Mr. Polin pointed out, are present in this one, like they are probably in most cities everywhere. But they are still issues, and they are significant. The public discussed the parking issues, which are present, as well as some conduct that was unacceptable. But in any event, that denial of the request one and two is made.

Going on to reasonable accommodation request number three, which is the determination about legal

non-conforming use, I think I understand.

And the Resolution that is ultimately adopted needs to articulate the City's position in that respect, and not somehow constitute a basis for the Applicant to argue that by granting this accommodation, which is recommended by the City, is granted with that proviso that it not go back to become a use that was prior to the recent zoning Ordinance amendment, and, therefore, it becomes a legal conforming use now and could, thereby, continue to operate as such.

If they wanted to be a non-conforming use, then they should have applied for the permit required by the Ordinance, in my estimation.

The reasonable accommodation request number four with regard to the application of Codes of the Zoning Code, clearly, once again, the analysis that's done on the definitions in one and two equally applies there.

The Building Codes, the same issue applies with respect to the City can't grant a waiver of the California Building Code. And so to the extent that those requirements are applicable, they have to be applied to all uses and clearly to the care facility uses as well. So that would be denied.

Number -- let's see. We're at number five.

## PUBLIC HEARING - 3/25/2009

1	And this is a little bit more difficult from my
2	perspective because it came in at the last minute and
3	recognized by all, for a variety of reasons, nobody's at
4	fault. It just came in very late, and so staff has not
5	done a complete or as complete an analysis of this
6	request as might have been done.
7	But I believe that Resolution findings can be
8	crafted, based upon the findings in certainly in one
9	and two and the request by the Applicant to be exempt
10	from the Zoning Code residential requirements entirely,
11	that a support can be made for not grant requesting
12	number five as made.
13	So with that, I have not certainly articulated
14	everything that needs to be in this Resolution to make
15	the proper findings. But the staff report speaks well to
16	all of those issues, and I would expect that a Resolution
17	be prepared that contains the findings set forth in the
18	staff report, which I believe are adequate to support a
19	denial of all five of these.
20	Any comments or concerns from staff?
21	MR. KIFF: Clarification, Mr. Allen. On number
22	five, your direction is to not grant or to deny
23	reasonable accommodation. Does that include the City's
24	alternate recommendation as 12, or does it

include -- it's of the entirety of it?

## PUBLIC HEARING - 3/25/2009

1	MR. ALLEN: I believe it has to, Mr. Kiff, and
2	I'd love to see if the parties can get together and work
3	this out, but that's not my job.
4	MR. KIFF: I see.
5	MR. ALLEN: And the City has made an effort to
6	make a proposal, but the Applicant has, out of hand,
7	rejected that proposal. And so I don't have the ability
8	to unilaterally impose the City's suggestions on him. I
9	think it would be an excellent compromise if that could
10	be done. And if it can be done, I'd be happy to revisit
11	as the Hearing Officer.
12	But I gained the very distinct impression that,
13	at this level, decisions need to be made on these
14	applications, and that's what I'm doing.
15	MR. KIFF: Understood.
16	MR. ALLEN: All right. Any other comments or
17	concerns?
18	UNIDENTIFIED SPEAKER: Can the public make a
19	statement?
20	MR. ALLEN: No, I don't think that's
21	appropriate now, because we'd just end up get back into a
22	legal discussion and debate. So thank you very much, all
23	of you, for your respectful time and attention.
24	The hearing is now closed.
25	(Ending time: 6:05 p.m.)
